*It is not enough
if you only detect crime
and
bring offenders to book.
You must also try
to win the affection of the people ...*

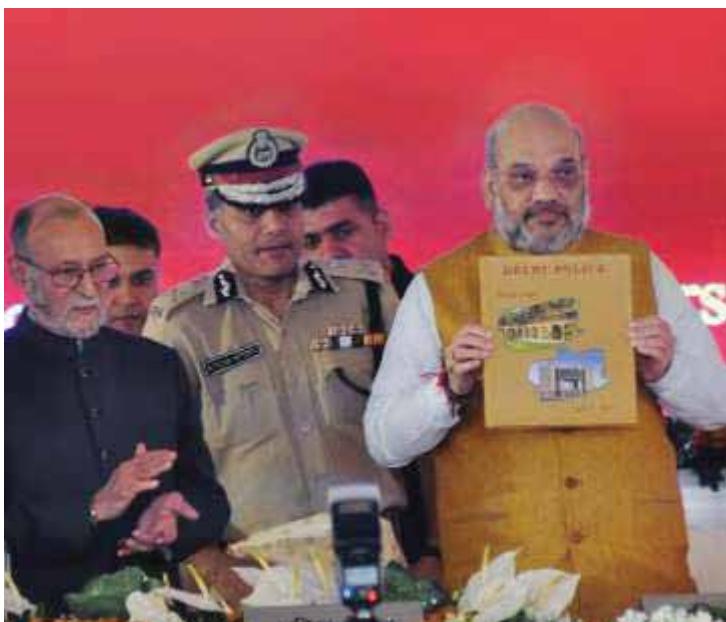

Sardar Vallabhbhai Patel

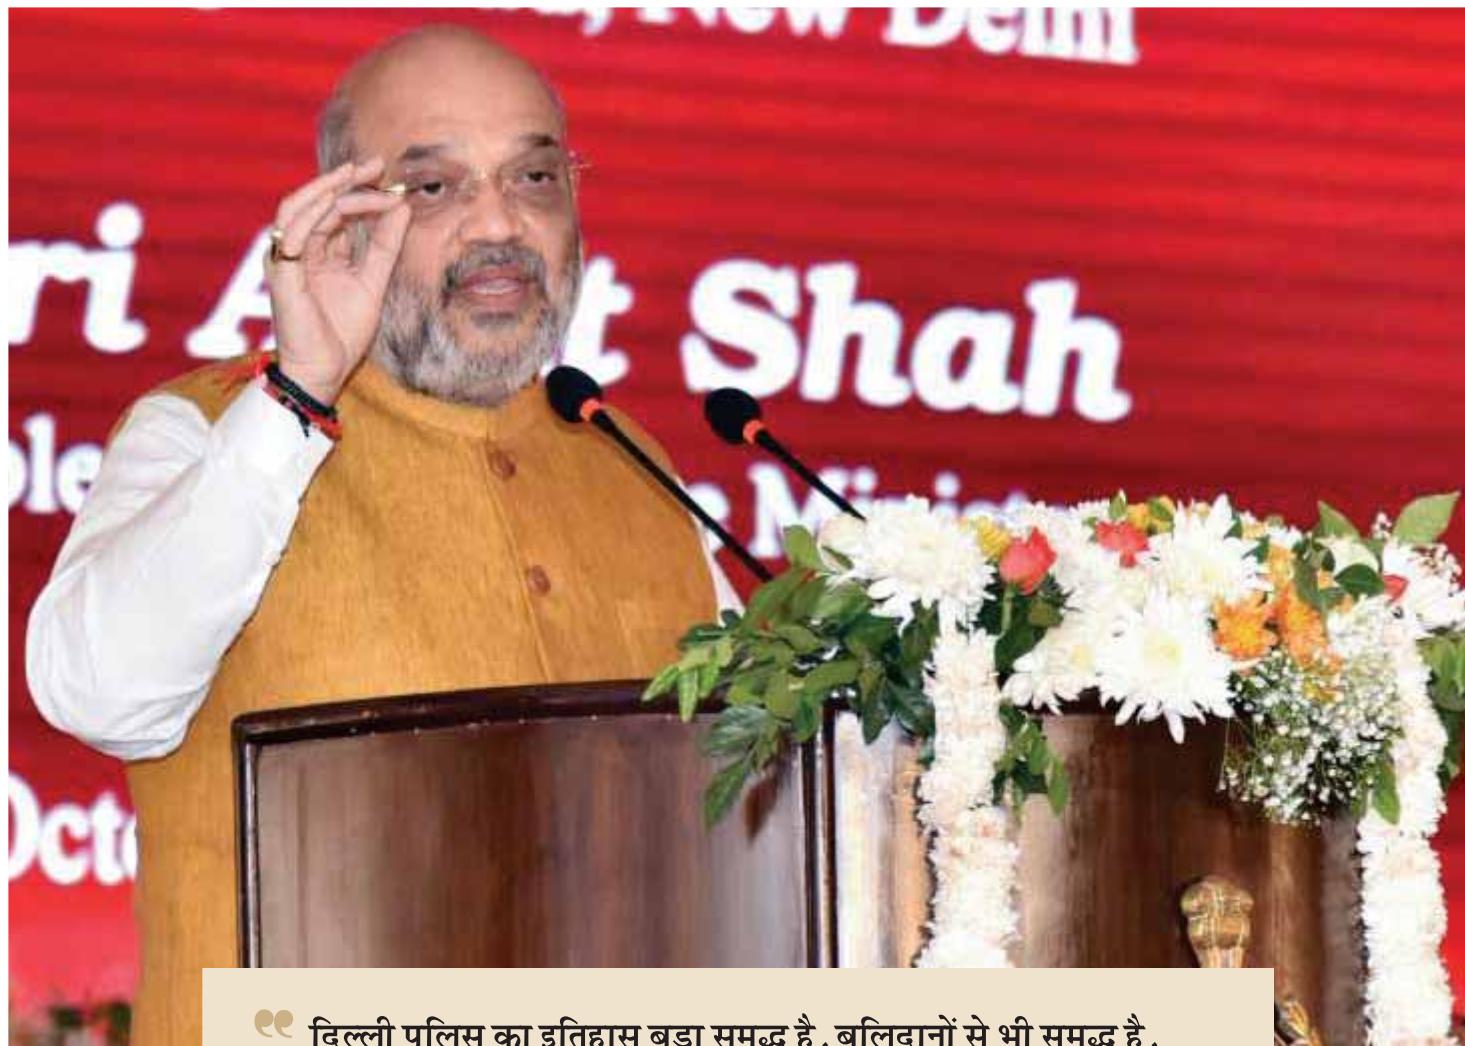

OCCASION: ADDRESSING DELHI POLICE
AND CENTRAL FORCES IN DELHI

DATE: 20TH, MARCH, 1950

“ दिल्ली पुलिस का इतिहास बड़ा समृद्ध है, बलिदानों से भी समृद्ध है, कर्तव्यों से भी समृद्ध है और सुरक्षा के क्षेत्र में भी समृद्ध है देशभर की पुलिस में, पुलिस बलों में, दिल्ली पुलिस को एक अलग दृष्टि से देखा जाता है। ”

“ सरकार के सभी विभागों के अन्दर घड़ी देखे बगैर कोई विभाग काम करता है तो वो पुलिस का विभाग काम करता है। वो कभी अपनी घड़ी नहीं देखता। ”

“ दिल्ली पुलिस 70 साल के बाद अपना मुख्यालय प्राप्त कर रही है। भवन के निर्माण से लक्ष्यों की सिद्धी नहीं होती है। भवन के अन्दर भावनाओं के निरूपण से ही लक्ष्यों की सिद्धी होती है। ”

अमित शाह

गृह मंत्री
भारत सरकार

संदेश

दिल्ली, देश की राजधानी होने के नाते विभिन्न प्रकार की राजनैतिक सांस्कृतिक, सामाजिक एवं आर्थिक गतिविधियों की केन्द्र बिन्दु है। दिल्ली महानगर में बेहतर कानून-व्यवस्था एवं सुचारू यातायात संचालन करना पुलिस के सामने नित् एक नई चुनौती होती है। दिल्ली पुलिस से उत्कृष्ट कार्यशैली के बल पर अन्य राज्यों की पुलिस के समक्ष अनुकरणीय उदाहरण प्रस्तुत करने की सदैव अपेक्षा रहती है।

मुझे यह जानकर हर्ष हुआ कि दिल्ली पुलिस एक कॉफी टेबल बुक का प्रकाशन करने जा रही है, जिसमें दिल्ली पुलिस के इतिहास, उसके आधुनिकीकरण, तकनीक के अधिकतम उपयोग, सामुदायितक नीतियों एवं महिला सशक्तिकरण की दिशा में उठाये गये कदमों का उल्लेख किया जा रहा है। इस कॉफी टेबल बुक में दिल्ली पुलिस व जनता के बीच परस्पर संबंधों को मजबूत करने की दिशा में उठाये गये कारगर कदमों की एक झलक भी देखने को मिलेगी।

मैं, कॉफी टेबल बुक के सफल प्रकाशन के लिए अपनी शुभकामनाएँ देता हूँ और इसके लिए दिल्ली पुलिस को बधाई देता हूँ।

शुभकामनाओं सहित !

(अमित शाह)

AJIT DOVAL
National Security Advisor

MESSAGE

I am glad to know that the Delhi Police is coming up with a Coffee Table Book "Heritage to Cyberage" showcasing its rich legacy. I am sure that the compilation will be informative, insightful & inspirational and lend a wider perspective to the readers.

This publication will also be highlighting dynamic changes that various aspects of policing has witnessed, over the years, not only in terms of the sophistication of equipment & technology but also in terms of Force's adaptability to the increasingly diverse and complex policing environment in their tasks of providing safety and security to the people of Delhi.

I wish the Commissioner of Police and his team great success.

Minister of State for Home Affairs

MESSAGE

I am glad to know that the Delhi Police is preparing a Coffee Table Book, which will provide a holistic and integrated perspective of the various aspects of policing in Delhi from "Heritage to Cyberage". This would also provide an in-depth insight into the developments in Delhi Police in various spheres that make it a role model for the other State Police Agencies.

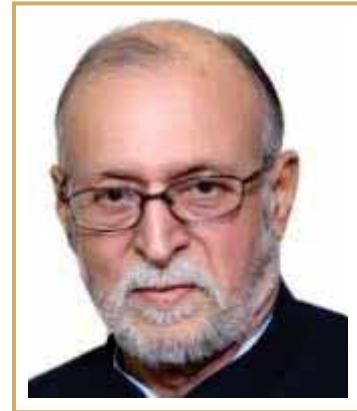

My best wishes are with all the officers and men of Delhi Police.

ANIL BAIJAL
Lieutenant Governor

MESSAGE

I am pleased to learn that the Delhi Police is bringing out a Coffee Table Book "**Heritage to Cyberage**" on the occasion of National Unity Day.

Delhi Police plays a vital role in maintenance of law & order and ensuring the safety & security of the residents of the National Capital Territory of Delhi, in addition to investigating crimes and management of traffic.

In the digital age, it is crucial for law enforcement agencies to stay one step ahead of the criminals by leveraging innovation. I hope that Delhi Police will continue to grow from strength to strength by modernising itself with the changing times and living up to public expectations.

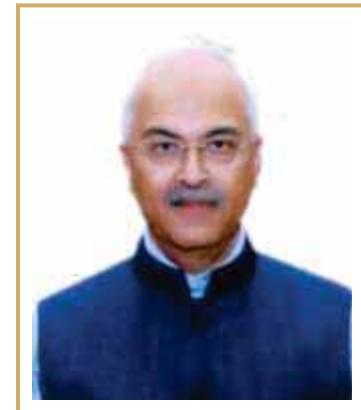

This Coffee Table Book will not only bring forth the various aspects of Policing in Delhi, but will also inspire Delhi Police personnel to attain the highest standards of excellence in their working. I convey my best wishes to Delhi Police for all its future initiatives.

A handwritten signature in blue ink, appearing to read "AB".

ANIL BAIJAL

AJAY BHALLA, IAS
Home Secretary

MESSAGE

I am glad to note that the Delhi Police is bringing out a Coffee Table Book "Heritage to Cyberage" on the National Unity Day i.e. 31st October, 2019. This book particularly focuses on all aspects of Policing in Delhi from earlier times to the Cyberage and rich heritage of Delhi Police. This Coffee Table Book will cover many key issues in the development of Delhi Police by showcasing various aspects of policing like History of Delhi Police, Law & Order Management, Smart Policing, Modernization, Community Policing, technologies, and the new challenges it faces.

I am sure that this book also highlights the need for a multidisciplinary and citizen-friendly approach, with an emphasis on integrated solutions to the safety and security issues relating to citizens of Delhi.

I wish the Delhi Police all success in all their initiatives.

AJAY BHALLA

Police Headquarters, Vikas Marg upto 2019

AMULYA PATNAIK
Commissioner of Police, Delhi

FOREWORD

The heritage a Delhi Police officer could take pride in, is of enviable richness. And on the path to Cyber Age, we have progressed with unflinching perseverance. This journey – from a glorious past of inspiring anecdotes to an onerous present of ceaseless challenges – is what this edition of our Coffee Table Book, “Herit-Age to Cyber Age”, pictorially illustrates. It is, indeed, a proud privilege for me to be part of this momentous occasion when this Coffee Table Book is getting released.

Over the years, challenges have been an integral part of the Delhi Police routine. More often than not, it has found itself pitted against crises, the genesis of which lay elsewhere. It gives me immense pride, however, to aver that, be it crime investigation, law and order management, security administration, or traffic regulation, the Delhi Police has all along risen to the occasion, traversed that extra mile, and delivered with exemplary aplomb.

This book will vividly present a collection of breathtaking pictures and narratives on the progress of the Delhi Police from earlier times to modern-age policing for the reader to reminisce many a poignant memory etched in the annals of the department over the years. Its publication owes to the persistent hard work put in by officers who assisted me in this venture, overcoming predictable hurdles in the endeavour to encapsulate the entirety of modern-age policing within page-limit permissibilities, and my hearty congratulations go to all those who have contributed to its making.

New Delhi

History of Delhi - A Brief Glance

With Delhi's history, indubitably, the evolution of India as a nation has been intricately intertwined. In this historic city, every grain of sand would be a witness to some enduring and engaging tale or the other. From the Pandavas to the British via the medieval dynasties and the Mughal emperors, the city has been the epicentre of all vicissitudes the nation has had to undergo. Indraprastha, the abode of the Pandavas in the Mahabharata, is said to have been in the area where the Old Fort (Purana Quila) is now situated. Delhi's destiny also had its tryst with the Sultans, culminating in the Mughal Dynasty. A marvel of art and architecture, many a time Delhi was ruined and pillaged by wanton greed, ravaged and scarred by bloodshed but, all along, it stood stoically – rock-like, and rose inexorably – Phoenix-like. There is one legend that attributes the origin of the name of the city to the name of a local chieftain called Dhilu. He is said to have played a vital role in the resurgence of the city. For this reason, the city came to be called Dhili, Dilli and, eventually, Delhi.

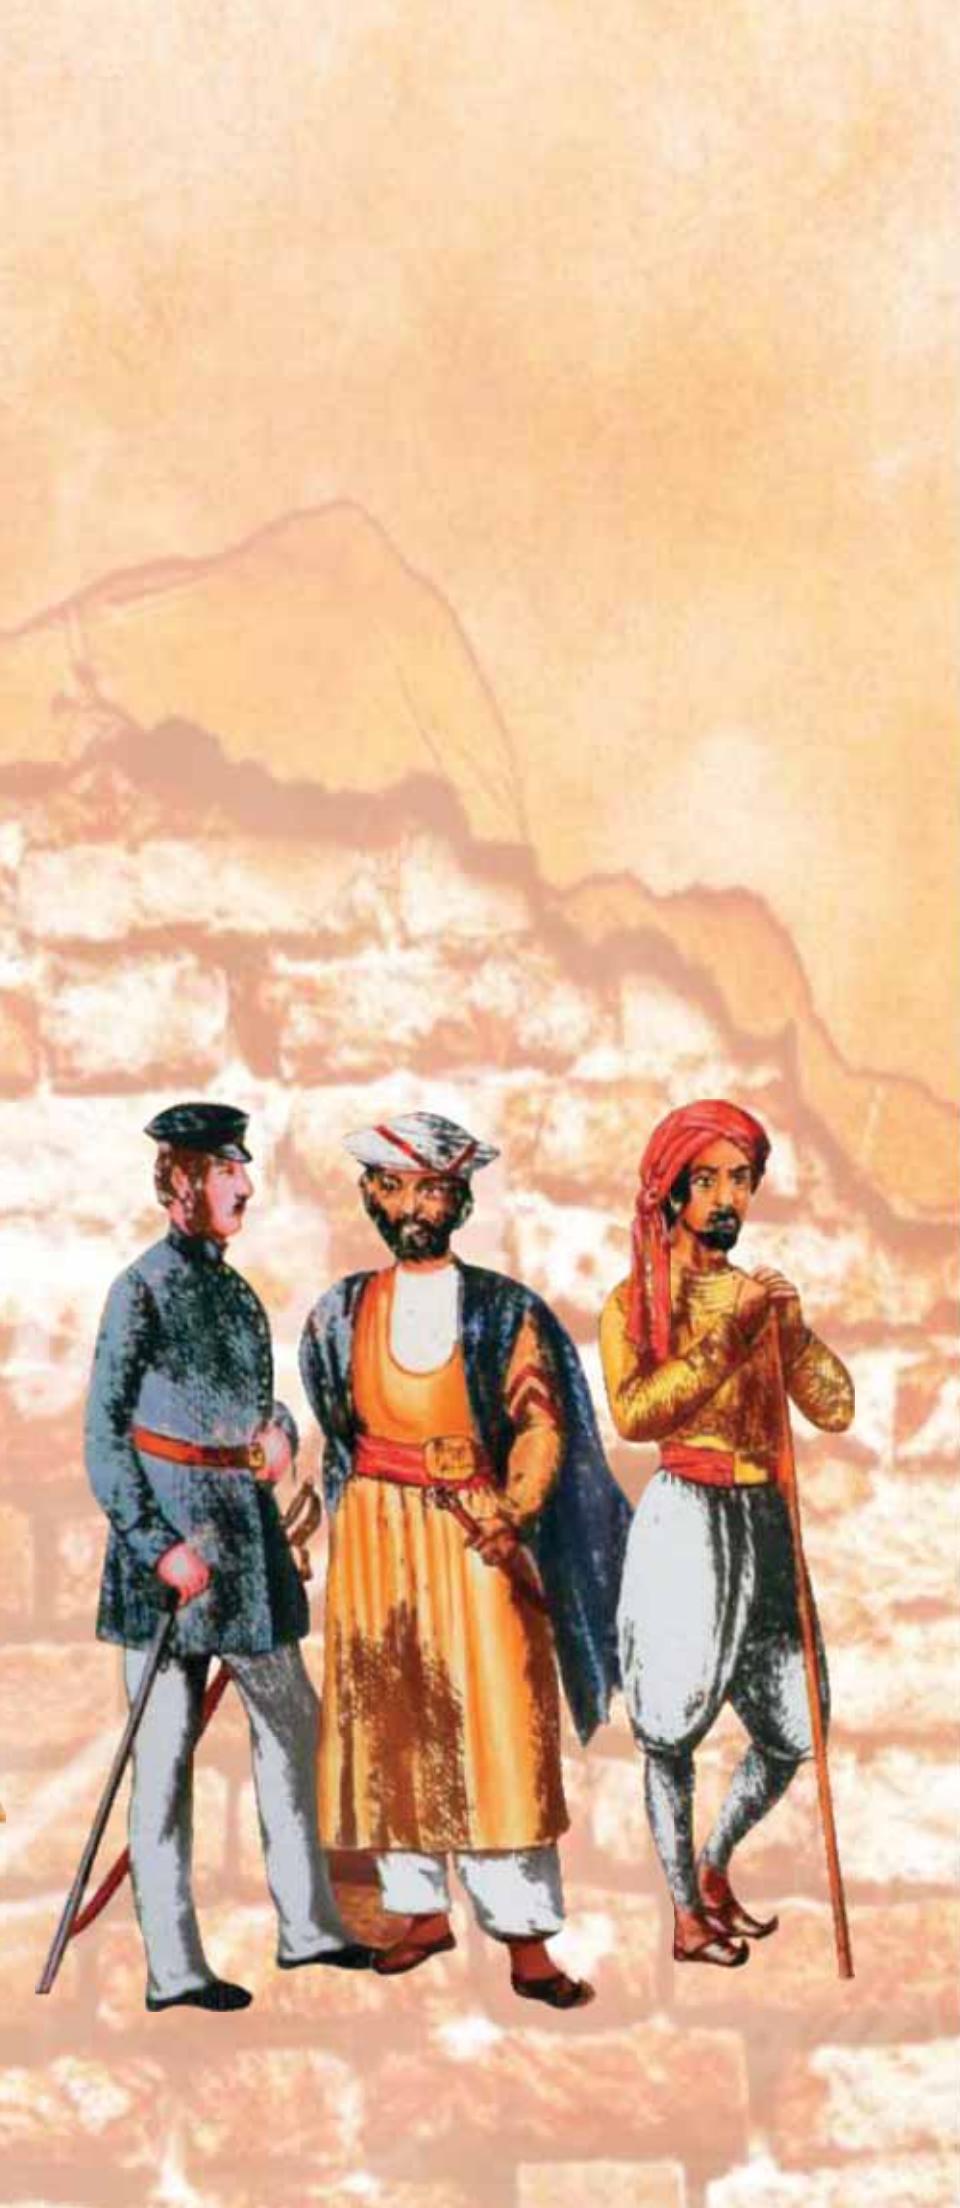

Delhi Police - The Journey Unveiled

Ancient India

In ancient times, a simple system was followed to guard the people and the community. The entire village or the community undertook the responsibility of its own security and safety with the help of their head, "gramani". But, later on, the police system evolved gradually and, over the centuries, underwent many changes.

KAUTILYA'S ADVICE ON POLICING

According to Kautilya, a King should police his kingdom in two ways:

- (1) *The frontiers of the kingdom should be protected by appointing responsible officials there. The persons entering into the kingdom should be checked and their antecedents verified. They should be disarmed and allowed to enter only with a passport.*
- (2) *Inside the kingdom, police posts should be established at every important place.*

Courts should also be created there.

He also says:

"There should be a Sthaniya for 800 villages; a Dronamukha for 400 villages; a Kharvata for 200 villages; and a Sangrahana for 10 villages to manage the policing affairs.

In addition to these officials, local officials should also be entrusted with the work of policing their areas. Nagarika should be in-charge of the city police; and Gramika (or Gramadhyaksha) of the village police.

Vivitadhyaksha should take care of the travellers. He should not allow persons without passports to travel in his area.

Spies should also be recruited to collect and pass all information to the State."

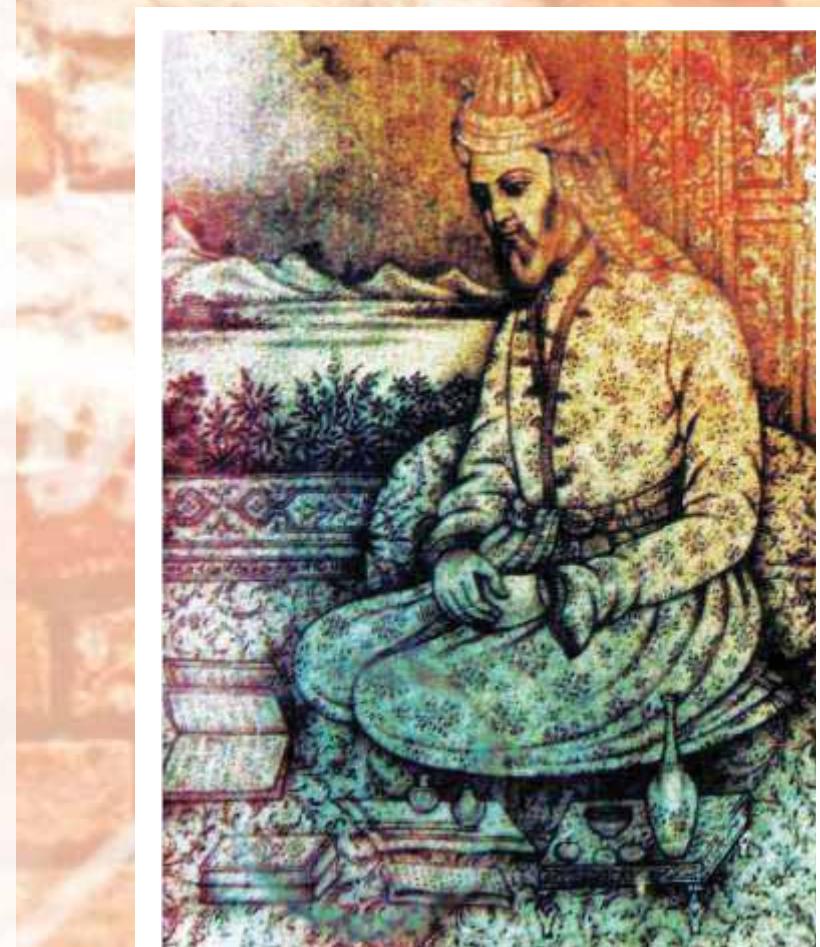

Delhi Policeman, 1840

Medieval India

The presence of a well-organised police force under a high official called Kotwal is well marked in medieval accounts.

Malikul Umra Faqrudin is said to be the first Kotwal of Delhi. He became the Kotwal at the age of 40 in 1237 A.D. and held the post through the reigns of three Delhi Sultans. It is presumed that the Kotwali, or Police Headquarters, was then located at Qila Rai Pithora or today's Mehrauli. Another Kotwal who is famous for his high sense of sincerity is Malik Alaul Mulk, who was appointed by Sultan Allauddin Khilji in 1297 AD. Later in the Mughal period, when Emperor Shahjahan shifted his capital from Agra to Delhi, in 1648, he appointed Ghaznafar Khan as the first Kotwal of the new city. The system of policing, headed by the Kotwal, remained in force throughout the medieval period and it came to an end with the crushing of the 1857 mutiny. The last Kotwal of Delhi was, Gangadhar Nehru, the grandfather of Pt. Jawaharlal Nehru.

Malikul Umra Faqrudin

SOME FAMOUS KOTWALS OF DELHI

Malik Umra Faqrudin

Born to a personal attendant of Sultan Balban, Faqrudin was perhaps the first Kotwal of Delhi (1237). By dint of hard work and sincerity, he rose to the position of Kotwal before he reached 40. He worked with tact and efficiency, and held the office for a long time. He died in harness in 1294.

Malik Alaul Mulk

He was also a famous Kotwal. He was made Kotwal in 1297 by Alauddin, the then ruler of Delhi. He worked hard with a high sense of sincerity. Alauddin is reported to have said about him: "He deserved the Vazarat (Prime Ministership) but I have only appointed him the Kotwal of Delhi on account of his incapacitating corpulence."

Ghaznafar Khan

Soon after Shahjahan settled in Delhi (1648), he appointed Ghaznafar Khan as his city Kotwal. Because of his meritorious services, he was also made Mir-i-Atish (Superintendent of Artillery). He was kept in service by Aurangzeb too. He died in 1667.

Ganga Dhar Nehru

Ganga Dhar Nehru was the grandfather of Pt. Jawaharlal Nehru. He was a police officer under the later Mughals in the first half of the 19th century and rose to be the Kotwal of Delhi.

Ganga Dhar Nehru

The Dawning of an Era

Before 1912

An organized form of policing was established by the British with the adoption of the Indian Police Act of 1861. Delhi being a part of the Punjab, Delhi Police remained a unit of the Punjab Police even after becoming the Capital of India in 1912. In the same year, the First Chief Commissioner of Delhi was appointed and vested with the powers of the Inspector General of Police.

THIKRI PEHRA SYSTEM

The able bodied men were enrolled in the Patwari's book and their names written on small potsherds called Theecur (hence the name). These were thrown together into a large pot, kept in the village hall or chopal, with a second empty pot beside it. Every day, it was the Patwari's work to visit the chopal and draw at random from the filled pot the required number of names, which he inscribed in his book. The potsherds so drawn were thrown into the empty jar, and the process was repeated daily till the first jar was exhausted, when it was replaced by the full pot and the system recommences. The watch was generally relieved at midnight. The duty is well performed, and without expense to the village.

Sir John Lawrence

The first headquarters of Delhi Government in the Company days. It was also the headquarters of Delhi Police. Earlier, the building was called Dara Shikoh's Library. Subsequently, a Mughal noble, Ali Mardan occupied it and it got a new name from its new owner 'Ali Mardan Ka Mahal'. Ochterlony, the first Resident of Delhi, gave it a facelift to make it look like a 'European thing'.

MIRZA GHALIB AND THE KOTWAL

There is a story relating to the harassment caused to the great poet Mirza Ghalib by a Kotwal in-charge of the Police Station Kotwali. In one of his Persian letters, Ghalib has written that the Kotwal was his enemy. On May 25, 1847, the Kotwal caught him playing chausar, a game played with dice, with a small amount of money at stake. He was given imprisonment for six months but was released after three months. The Kotwal again arrested him for some other 'offence'. The Magistrate reprimanded the Kotwal

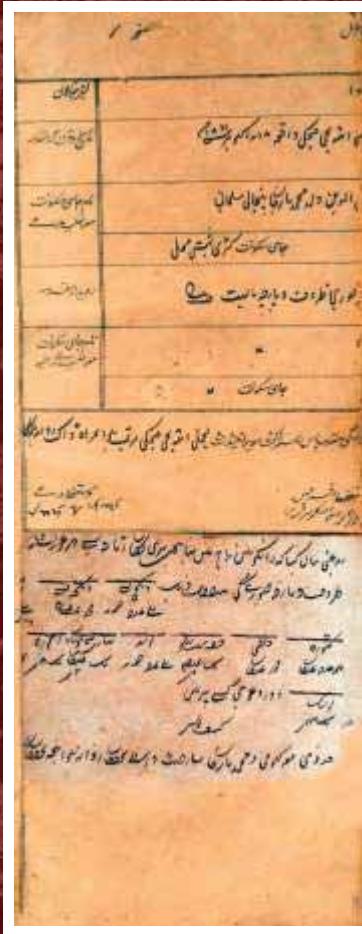

saying, "You don't find any other person than the Mirza to satisfy your whims?"

R.V. Smith

MAIN PROVISIONS OF THE INDIAN POLICE ACT, 1861

1. *A uniform police system for the entire country.*
2. *Each province to have an independent police establishment as a single force under the general control of an Inspector General, European, responsible to the provincial Government.*
3. *Each province to have a police establishment under a Superintendent of Police, European, departmentally subordinate to the Inspector General, but responsible to the District Magistrate in matters of law and order and preservation of peace.*
4. *The policemen to be recruited from among the populace of the concerned province, if possible.*
5. *The subordinate police to have the ranks of Inspector (European or native), Head Constable and Constable.*
6. *Head Constables to head station houses.*
7. *Suitable uniforms to be provided to all below the rank of Inspectors.*
8. *Residential quarters to be provided to the officers and policemen.*
9. *Village watchman to be retained at a fixed remuneration.*

THE FIRST FIR IN DELHI

THEFT OF UTENSILS AND A HUKKA
F.I.R. No. 1, 380 IPC,
dated 18.10.1861, Police Station Subzi Mandi

Summary: Maiyuddin s/o Mohammad Yar Khan r/o Katra Sheesh Mahal complained that 3 degcha, 3 degchi, a katora, a kulfī, a lota, a hukka and some ladies' clothes worth 45 anna were stolen from his house in the night.

Fingerprint Bureau, Phialaur

FINGER-PRINTS: AN AID TO POLICING

The individuality of skin patterns on fingertips is recognized world over. The British were the first to use fingerprints to identify individuals, in the eighteenth century when obtaining receipts of payments from the workers in India. Taking a cue from there, Sir Edward Henry made a scientific classification of fingertip impressions and took it to Scotland Yard, 1901.

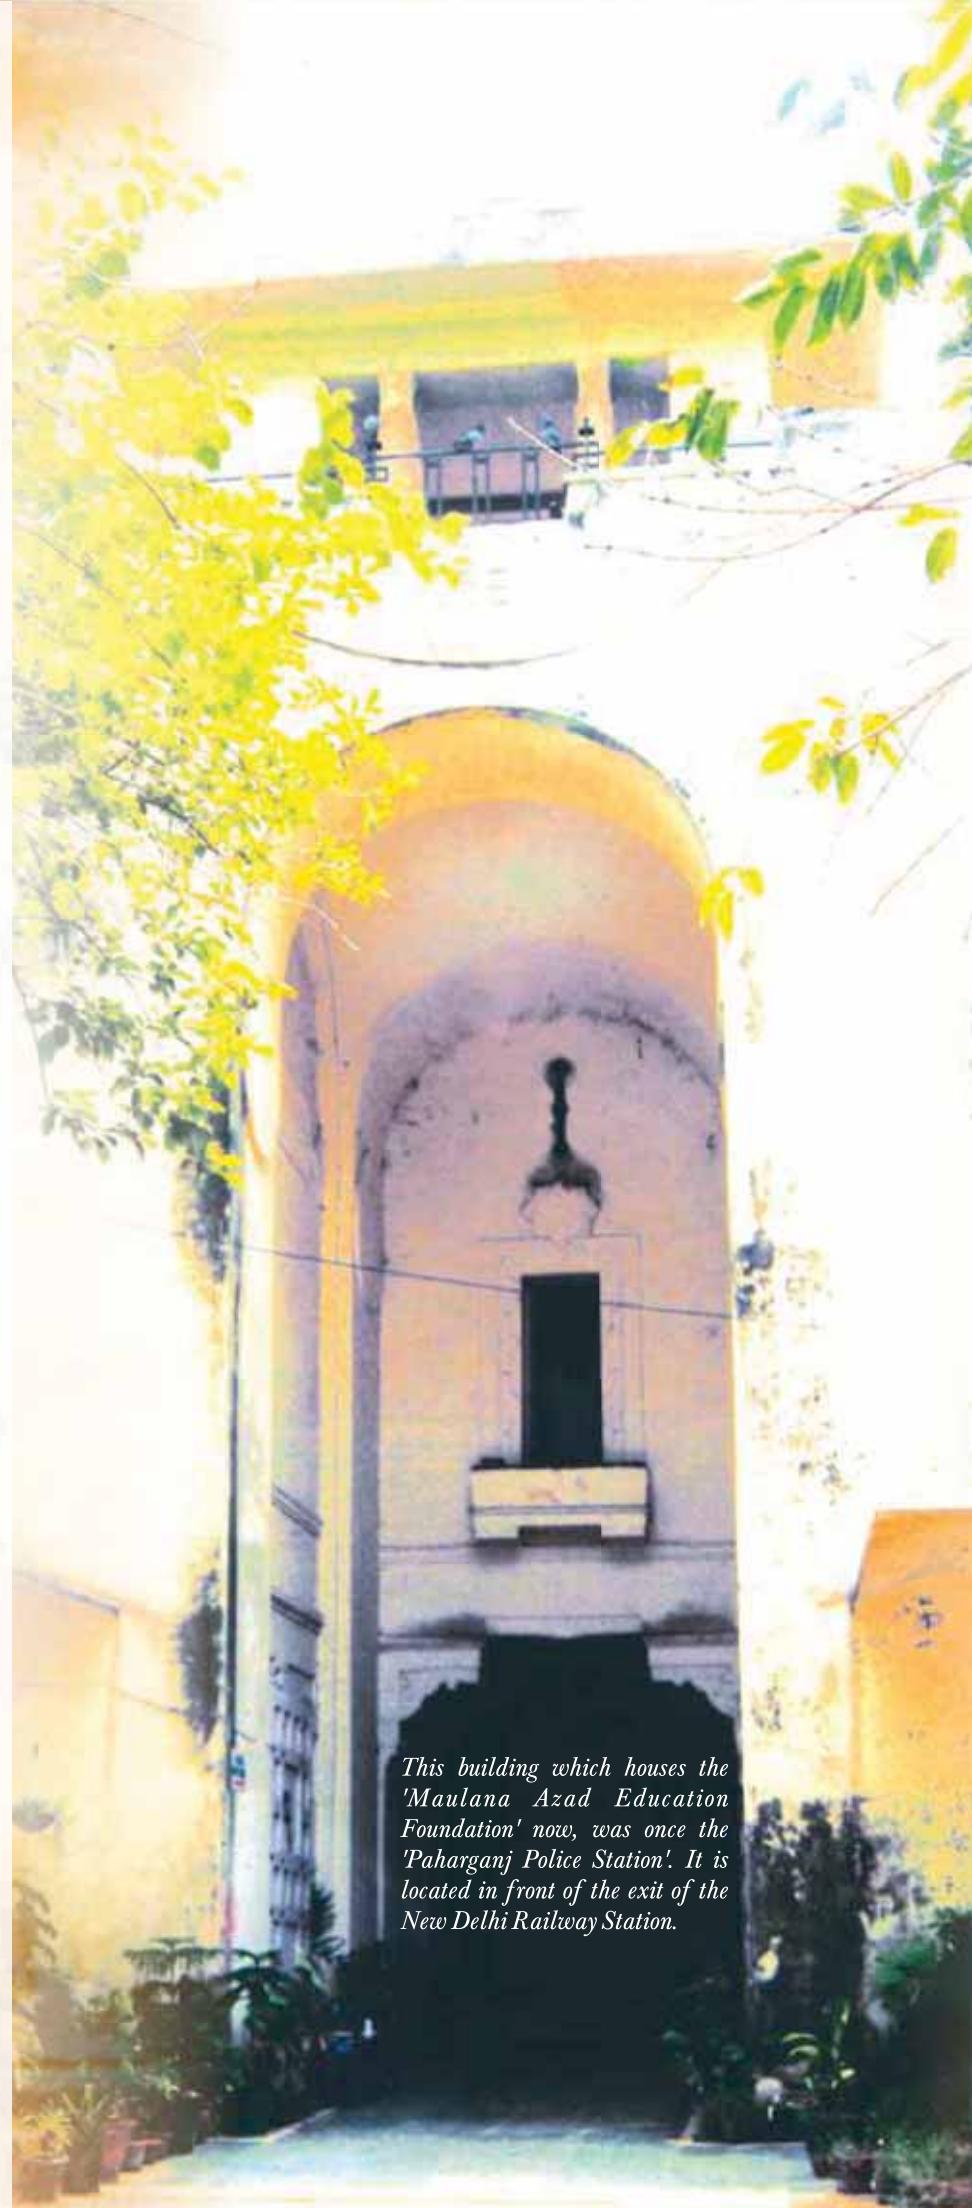

It was used there in place of the unreliable Berillon Anthropometric System with ample success. Fingerprinting spread all over the world as 'a fool-proof method of identification', for however hard one may try, one cannot mutilate his fingerprint pattern beyond recognition.

The Fingerprint Bureau at Police Training School Phialaur (Punjab) is one of the best such bureaus in the world. Delhi Police has also got its Fingerprint Bureau with all the requisite facilities.

1912 – Administration Changes

According to the 1912 Gazette, Delhi Police force was commanded by a Superintendent and a Deputy Superintendent of Police with the total comprising two Inspectors, 27 Sub-inspectors, 110 Head Constables, 985 Foot Constables and 28 Sawars. There were three police stations stationed at Kotwali, Subzi Mandi and Paharganj. The Deputy Inspector General of Ambala Range supervised the functioning of Delhi Police.

This building which houses the 'Maulana Azad Education Foundation' now, was once the 'Paharganj Police Station'. It is located in front of the exit of the New Delhi Railway Station.

TOTAL	1325

Source: Report of the Police Administration in Punjab for the year 1911-12, p.xii.

In the same year, Delhi was detached from Punjab and made a separate, independent administrative unit under the Chief Commissioner. Several new police stations were also set up. To make the patrolling more effective police were provided with cycles, motorcycles and other motor vehicles. Though the lathi (baton) was still their main stay but for certain duties, policemen were given rifles. Interestingly, the 'whistle' was introduced about this time in place of the old rattle which was used to summon assistance earlier. The beat system of policing still in vogue, was introduced for the first time.

POLICE UNIFORM

Earlier the Policemen wore badges, but no uniforms. The images and pictures of policemen that have come down to us from ancient and medieval times substantiate this. Even in the early days of the East India Company, there was no standard uniform. Policemen wore different types of headgear safas, pagris and topis and footwear-chappals and jooties (but not boots). During the Raj came a certain uniformity in the dress of policemen. The prescribed uniform consisted of pagri, shirt, shorts, patties, chappal and a broad leather belt.

Down Memory Lane

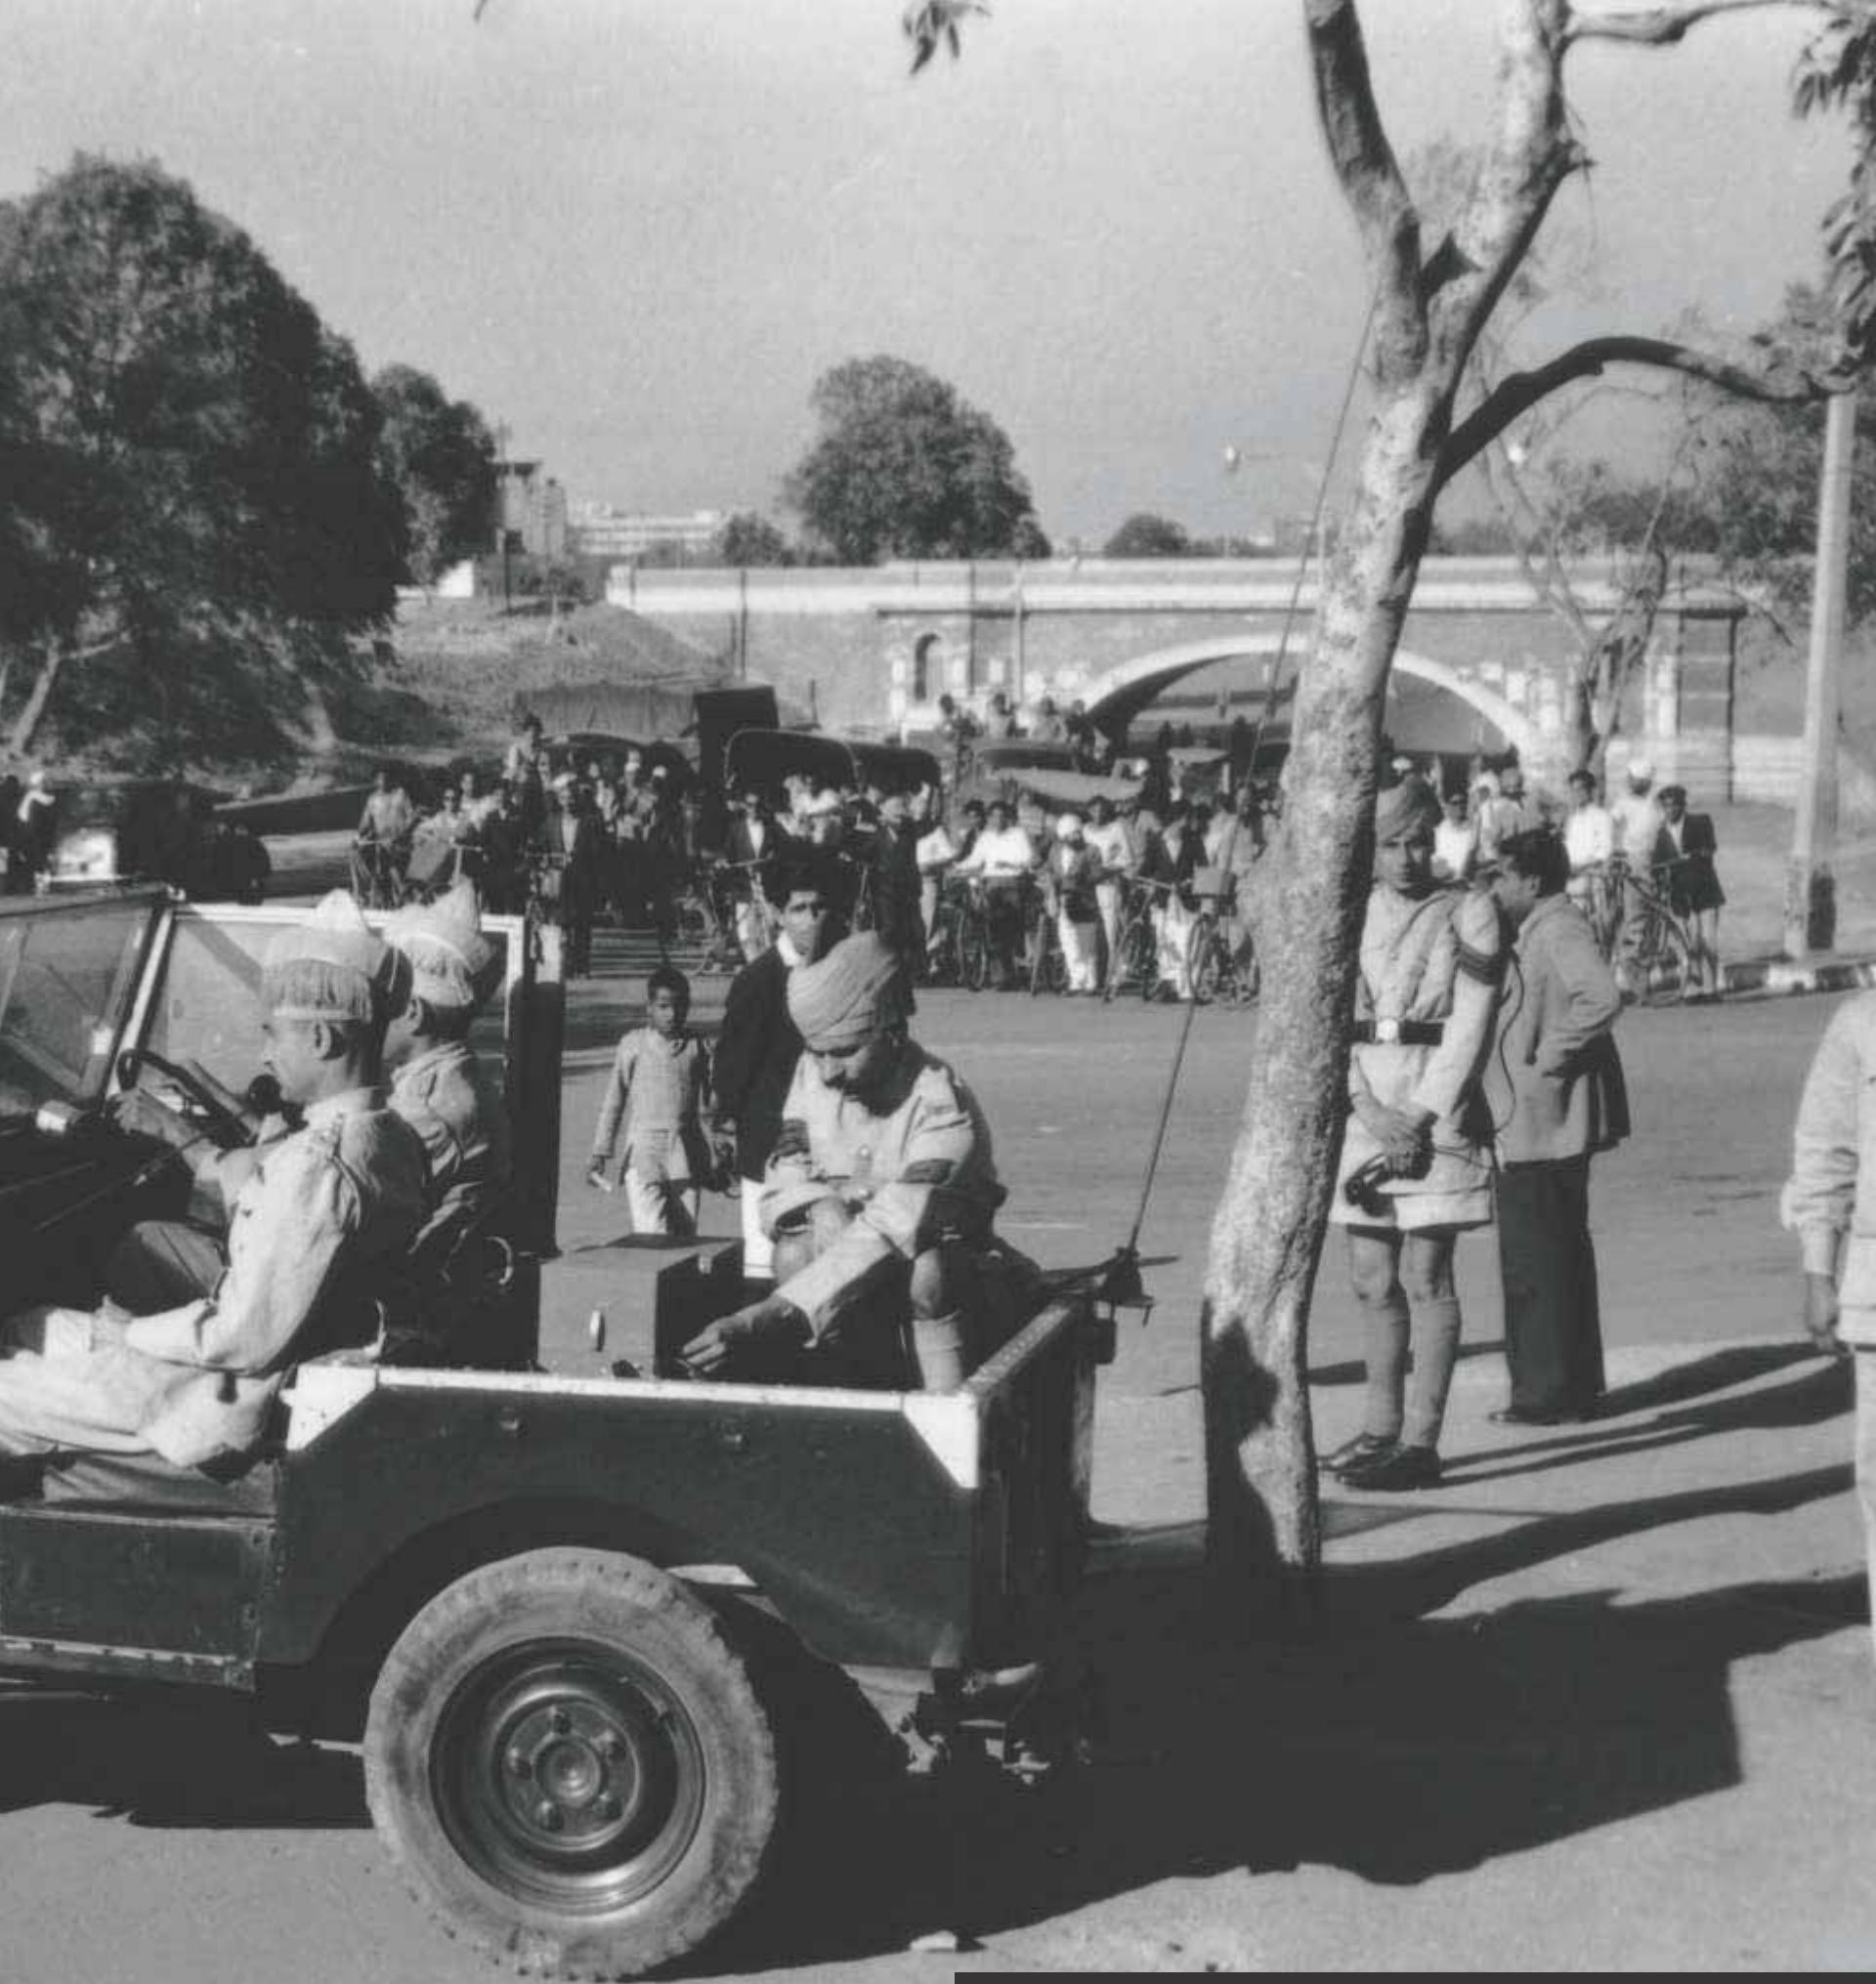

During Independence

By 1947, Delhi Police had expanded and progressed substantially but bigger challenges came with the outbreak of communal riots in the partition period. Many parts were affected but Delhi Police put its best foot forward to control the unprecedented violence with the help of the army.

After Independence

After Independence, the philosophy behind policing underwent a radical transformation. Earlier, the police was meant to serve the Empire. In new India, the police was to serve the people.

जनता का प्रेम हासिल करें

पिछले साल जब आप लोगों की परेड हुई, उसके बाद बहुत से फेर-फार हुए हैं। दुनिया में और मुल्क में भी। आज हमारे हिंदुस्तान में इस साल भारत का नया विधान अमल में आ गया है, और स्वतंत्र भारत की पुलिस आज बनी है। पिछले तीन साल में आपके ऊपर बहुत बोझ पड़ा है और जो हमारी पुलिस फोर्स टूट गई थी उसको फिर ठीक करने में काफी मेहनत करनी पड़ी, लेकिन जब हमारी ताकत और संगठन ठीक हो गया है, इसके लिए मैं आप सबको मुबारक बाद देना चाहता हूँ, खासकर के हमारे इंस्पैक्टर जनरल ऑफ पुलिस जिसने संगठन बनाने में काफी मेहनत की है उनको, खास मुबारकबाद देना चाहता हूँ।

दिल्ली शहर का काम पुलिस के लिए कई कारणों से बहुत कठिन बन गया है, लेकिन जिस तरह से इन मुसीबतों में आप लोगों ने काम किया, उसके लिए भी मैं आपको धन्यवाद देना चाहता हूँ। गवर्नर्मेंट की या शहरियों की इज्जत उनकी पुलिस पर निर्भर रहती है। आप का काम कठिन है, आपकी जवाबदारी बहुत भारी है, ऐसा ही आपका काम इज्जत से भरा हुआ है। लाखों लोगों की इज्जत की रक्षा करना, जान-माल की रक्षा करना वह बड़ा भारी इज्जत का काम है, जितना वह जवाबदारी का है। हमसे, पुलिस से, गुनाह करने वाले लोग खाली डरें, इतने से हमारा काम नहीं होता। धाक से भरा हुआ है लाखों लोगों की इज्जत की रक्षा करना जान माता की रक्षा करना वह बड़ा भारी इज्जत का काम है, जितना वह जवाबदारी का है। हमसे, पुलिस से गुनाह करने वाले लोग डरें इतने से हमारा काम नहीं होता। धाक से काम कई हद तक चल सकता है, बंदूक से, डंडे से कई हद तक हम काम ले सकते हैं, लेकिन पुलिस का असल काम तब अच्छा होता है कि जब जनता में

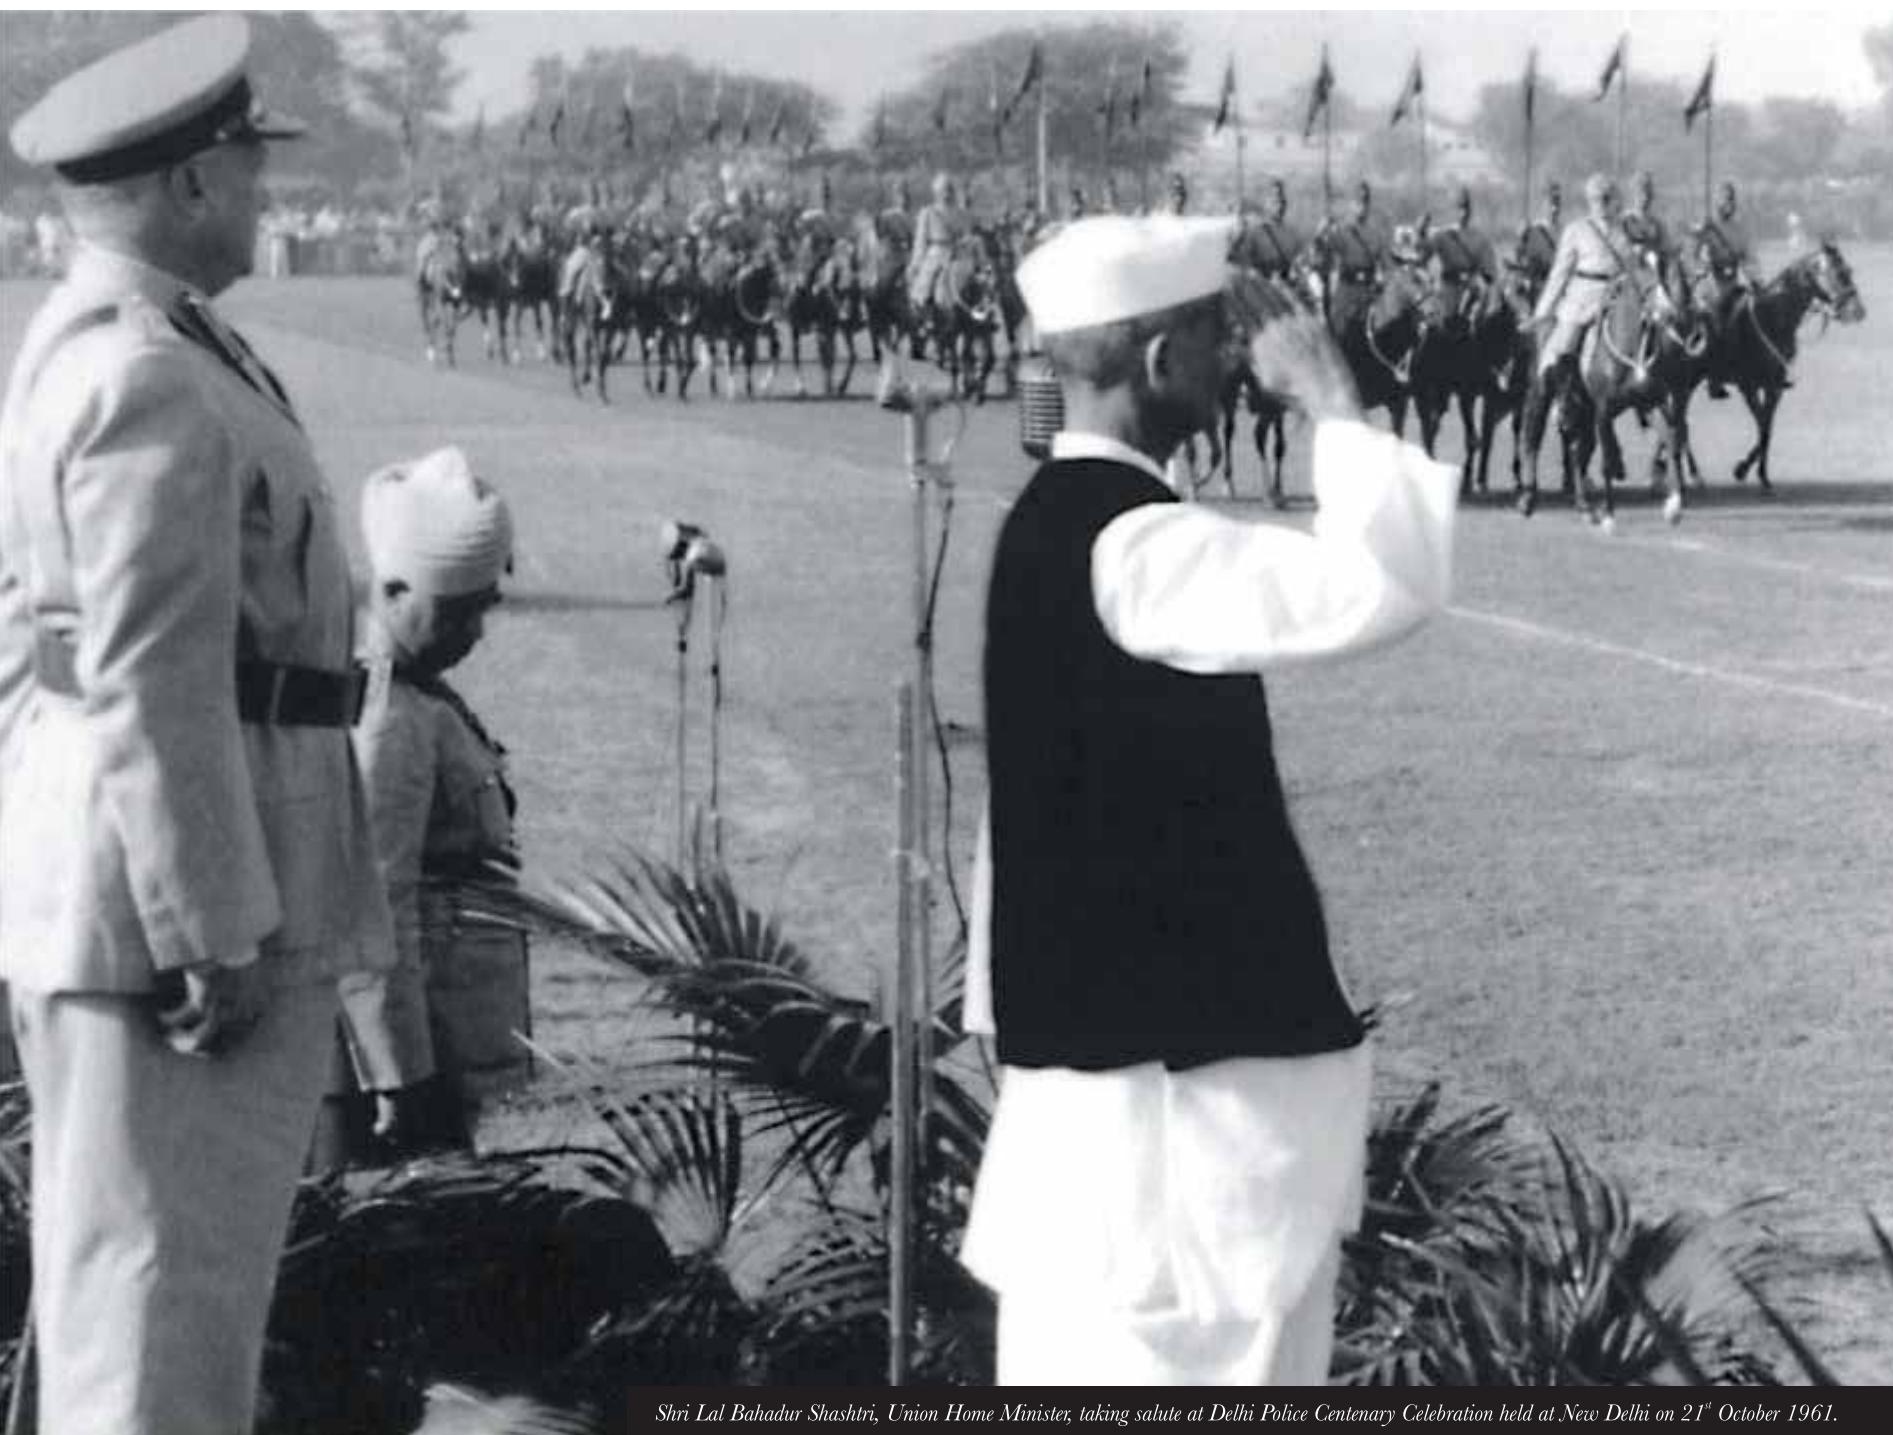

प्रेम का संपादन करें, और जितना ज्यादा प्रेम, लोग हमारे साथ रखेंगे, उतना ज्यादा काम हमारा सरल होगा। उसके लिए तो मैं आपसे अपील करूँगा कि कितना गुरसे का भी कारण हो (प्रोवोकेशन) हो और मिजाज़ बिगाड़ने का कारण भी हो तो वह मिजाज़ ठंडा रखना चाहिए, वह पुलिस का प्रथम कर्तव्य है जो पुलिस अपना मिजाज़ गुमा देती है, वह पुलिस की जगह से हट जाती है। अपना मिजाज़ शांत रखना चाहिए, अपनी जबान बहुत मीठी रखनी चाहिए और कम से कम पहला काम हमारा यह होना चाहिए कि जो गुनाहों में फंसा है, और जिसने अपना मिजाज़ गुमा दिया है उनको पागल मान के या तो दर्दी मान के उसी तरह से बर्ताव करना चाहिए, कि जिस तरह से एक डॉक्टर अपने दर्दी के साथ करता है तब और इसी तरह से काम लेने से हम जनता का प्रेम ज्यादा—ज्यादा संपादन करेंगे। छोटे से छोटे बच्चे से लेकर बुड़े तक और कोई भी हो, सबके साथ अदब से, लेकिन मजबूती से, अपना काम करना चाहिए और उसमें जितनी आपको सफलता मिलेगी, उतनी हमारी सरकार को, और उन्हें हमारे लोगों की इज्जत को भी वृद्धि होगी। मैं इसलिए आपको एक और बात कहूँगा कि हमने जो वारसा मिला है पिछला वह एक तरह से हमारे लिए हमारे काम में रुकावट डालने वाला है। पुलिस की इज्जत, जिस हालत में पुलिस काम करती थी उस हालत में बहुत बुरी थी उसके कुछ भी कारण हो लेकिन पुलिस का और जनता का संपर्क नहीं था और परदेसी हुक्मत का हुक्म उठाना पड़ता था। आज अपनी सरकार का हु—कु—म उठाना है, उसमें बहुत खुशी से काम करने की गुंजाइश है। और उसके साथ—साथ पुलिस के ऊपर एक प्रकार का धब्बा चलता आया है कि पुलिस में और सर्विस में भी हैं, कि लोग समझते हैं कि स्वच्छता से काम नहीं करते हैं, कई लोग पैसा खा जाते हैं, उसमें ऐसी बुरी रेपुटेशन हमको मिली है उसमें

से हटना है, उसके लिए हमें ज्यादा सावधान रहना है। उसमें खासकर कि पुलिस को पूरा हिस्सा देना है, कि कितनी भी मुसीबत हो लेकिन जो आगे का काम है, वह काम कभी नहीं करना है, और जितना परीने का पैसा हमको मिले, वह हमको हजम होगा, खुदा ईश्वर उससे राजी होगा, लोग हमसे प्रेम करेंगे, और फिर उसमें जो कुछ आप चाहते हैं आपको मिलेगा। ईश्वर से मैं प्रार्थना करता हूँ कि आप लोग, जिस की आप सर्विस करते हैं, उसका और सारे जनता का प्रेम संपादन करके अपनी और उनकी इज्जत में वृद्धि करें। दिल्ली राजधानी है, उसकी पुलिस की कामगिरी सबसे अच्छी होनी चाहिए। उनकी इज्जत सबसे बड़ी होनी चाहिए और इसलिए हम सबको यह इस समय पर याद रखना चाहिए कि हमसे कोई भी ऐसा काम न हो, जिससे हमारी इज्जत पर धब्बा लगे। मैं फिर एक बार आप सबको मुबारकबाद देना चाहता हूँ। आपके काम में फतेह हो और फिर एक साल के बाद जब आप हम मिलें, उस समय पर हमारी आप से भी ज्यादा प्रगति हुई हो, और हमारा संगठन और ज्यादा शक्तिशाली हो, और लोगों का प्रेम ज्यादा संपादन किया हो, इतना मैं कह के बंद करता हूँ।

Inspectors General of Police, Delhi

Bigger Transformations

On February 16, 1948, Shri D.W. Mehra was appointed the first Inspector General of Delhi Police. The strength of Delhi Police increased from 8,000 in 1951 to 12000 in 1961. The post of Deputy Inspector General of Police was created in 1956 to the existing ranks of one Inspector General of Police and eight Superintendents of Police.

The Government of India appointed a Police Commission headed by Justice G. D. Khosla in 1966 to enable the police to respond more effectively to the changing requirements.

The Police Commission made significant recommendations, the most important of which was the creation of the Commissioner System. The Government accepted the recommendations and introduced the Police Commissioner system in the Capital from July 1, 1978. Some of the powers vested in the office of the District Magistrate were transferred to the Commissioner of Police. The empowerment of the police enhanced the response-mechanism and the efficiency of the police in maintaining law and order and curbing crime. In the new set-up, the designations of various officers of Delhi Police were changed.

SHRI D.W. MEHRA I.P.
Inspector General of Police
February 1948 – May 1948

SHRI S.R. CHAUDHARY I.P.
Inspector General of Police
May 1948 – January 1954

SHRI P.L. MEHTA J.P.I.P.

Inspector General/Commissioner of
Police October 1977 – January 1980

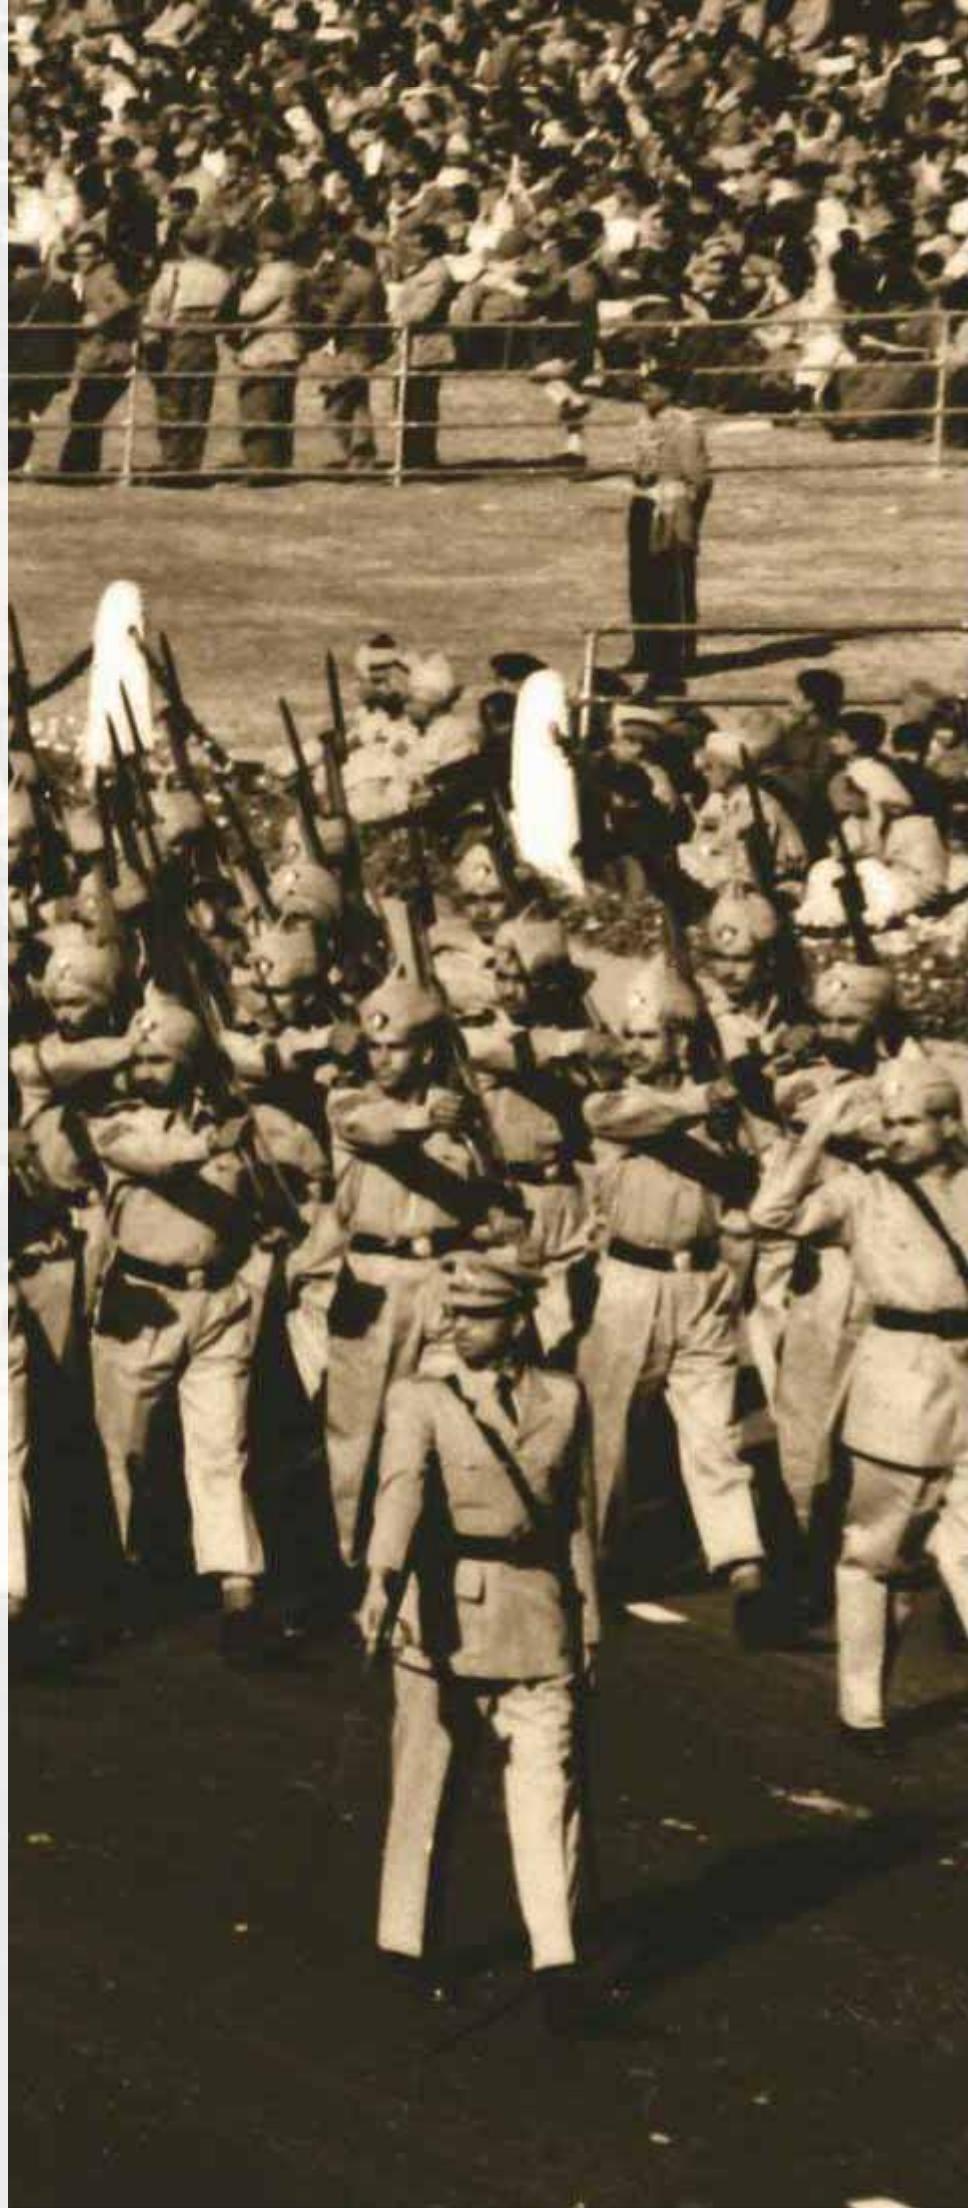

Commissioners of Police, Delhi

SHRI AMULYA PATNAIK I.P.S.
Commissioner of Police
Jan 2017 Incumbent

As We Exist Today

From the Post - Independence era, as the challenges of crime, law & order, traffic and terrorism grew in intensity, the Delhi Police also progressively evolved with greater numerical strength. Today, the Delhi Police is a team of around 92, 000 personnel. It is the largest police force deployed in any city in India, and bigger than those of London, Paris, New York and Tokyo. It consists of 6 Ranges; 15 Police Districts; 71 Sub-Divisions; 209 Police Stations; and 7 Specialized Crime Units (declared as Police Stations). The Commissioner of Police is assisted by 12 Special Commissioners, each responsible for one of the various operational and administrative units like, law & order, crime, intelligence, training, security, training, armed police and head-quarters. The units are supervised by Joint CsP and Additional CsP assisted by DCsP, ACsP and other ranks.

Crime Management: Priority Concern All Along

Crime Prevention Beat Policing & Patrolling

Over the years, Beat Policing has remained the backbone of Policing in Delhi since the Beat Officers monitor criminal activities and act proactively to curb crime in their respective areas.

Beat officers are assigned various roles to curb crime:

- *Keeping a watch over anti-social elements, bad characters of the area, criminals released on bail and emerging criminals. During patrolling, they especially identify new criminals and update their records on a regular basis.*
- *Checking suspected vehicles, particularly fast-moving motorcycles and other vehicles, to prevent criminal activities on their part.*
- *Enforcing pre-emptive anti-terror measures such as tenant verification, servant verification, etc.*
- *Keeping drug addicts, school dropouts and budding criminals in their areas under surveillance.*

BEAT SYSTEM

Patrolling on Scooty

Patrolling Police Women on Motor Cycles

PCR VANS

The prime mission of the Police Control Room is to immediately respond to a distress call to render to the caller assistance. In cases of road accidents, the priority concern is to shift the injured to the nearest hospital. Their main functions are:

Constantly support the local and traffic police in crime prevention, detection and law & order arrangements on a daily basis

Conducting regular patrolling around all vital installations, High Security Zone areas, important official buildings, diplomatic areas, Critical Public infrastructure like Railway/ Metro Stations, Bus Depots/Terminals/ISBTs, Power Stations and areas of High Footfall.

Providing cover to Girl's Schools/women's Colleges, especially at the opening/closing timings to prevent incidents of eve-teasing/molestation, and snatching.

C.R.10

PCR Vans when they were Launched as Flying Squad in 1968

All Women PCR Van

Raftaar Bikes

'Raftaar' Motorcycle Patrols, connected with CPCR through GPRS, are special patrols to supplement the PCR Vans. Introduced in 2018, the key objective of the scheme is to ensure better visibility for the police, with greater area dominance and effective patrolling, as also for quicker response to distress calls in vulnerable and congested localities, with particular focus on those relating to women's safety.

Prakhar

An exclusive street crime patrol van launched in September 2019 by the Delhi Police to tackle the nagging problem of street crime in the National Capital. These special patrols cover the Crime Hot Spot locations of the city, equipped with more firepower and modern technology. The staff component includes a woman police officer, especially in areas prone to crime against women.

Tourist Police Vans

The PCR has, Tourist Patrol Vehicles in its fleet, are deployed at important tourist places to reach out to national and international tourists visiting the National Capital. Some of the locations covered by these Vans are : Humayun Tomb, India Gate, Palika Bazar Main Gate, Janpath Market, Raj Ghat, Red Fort, IGI Airport, Qutub Minar, Lotus Temple, Akshardham Temple, Dilli Haat and Jama Masjid.

Crime Investigation Crime Team

The Delhi Police Crime Team has a very rich experience of solving some very important cases in its long history.

In order to modernize Crime Team, each district has been equipped with a Mobile Crime Team which has the staff and facilities to lift finger prints, foot prints, blood stains, etc. All Crime Teams have been equipped with sophisticated equipment and a CDTs-trained SI has been appointed as in charge of each of these teams in the Districts. Each team also has a trained photographer and a sniffer dog. This team rushes to the scene of heinous crime and has proved extremely useful in collecting evidence to connect criminals with the scene of crime for successful prosecution in the Court of Law.

Dog Squad

There are 10 locations in Delhi Police where Dog Squads are stationed:-

1. PS Model Town
2. Chanakya Puri
3. PS Kalyan Puri
4. PS Darya Ganj
5. PS Sabzi Mandi
6. PS Maurya Enclave
7. Sector- 12, R.K.Puram
8. Sector- 16A, Dwarka
9. PS Janakpuri
10. Pushp Vihar (Saket)

From Manual System to Finger Prints Automatic Tracing System (FACTS)

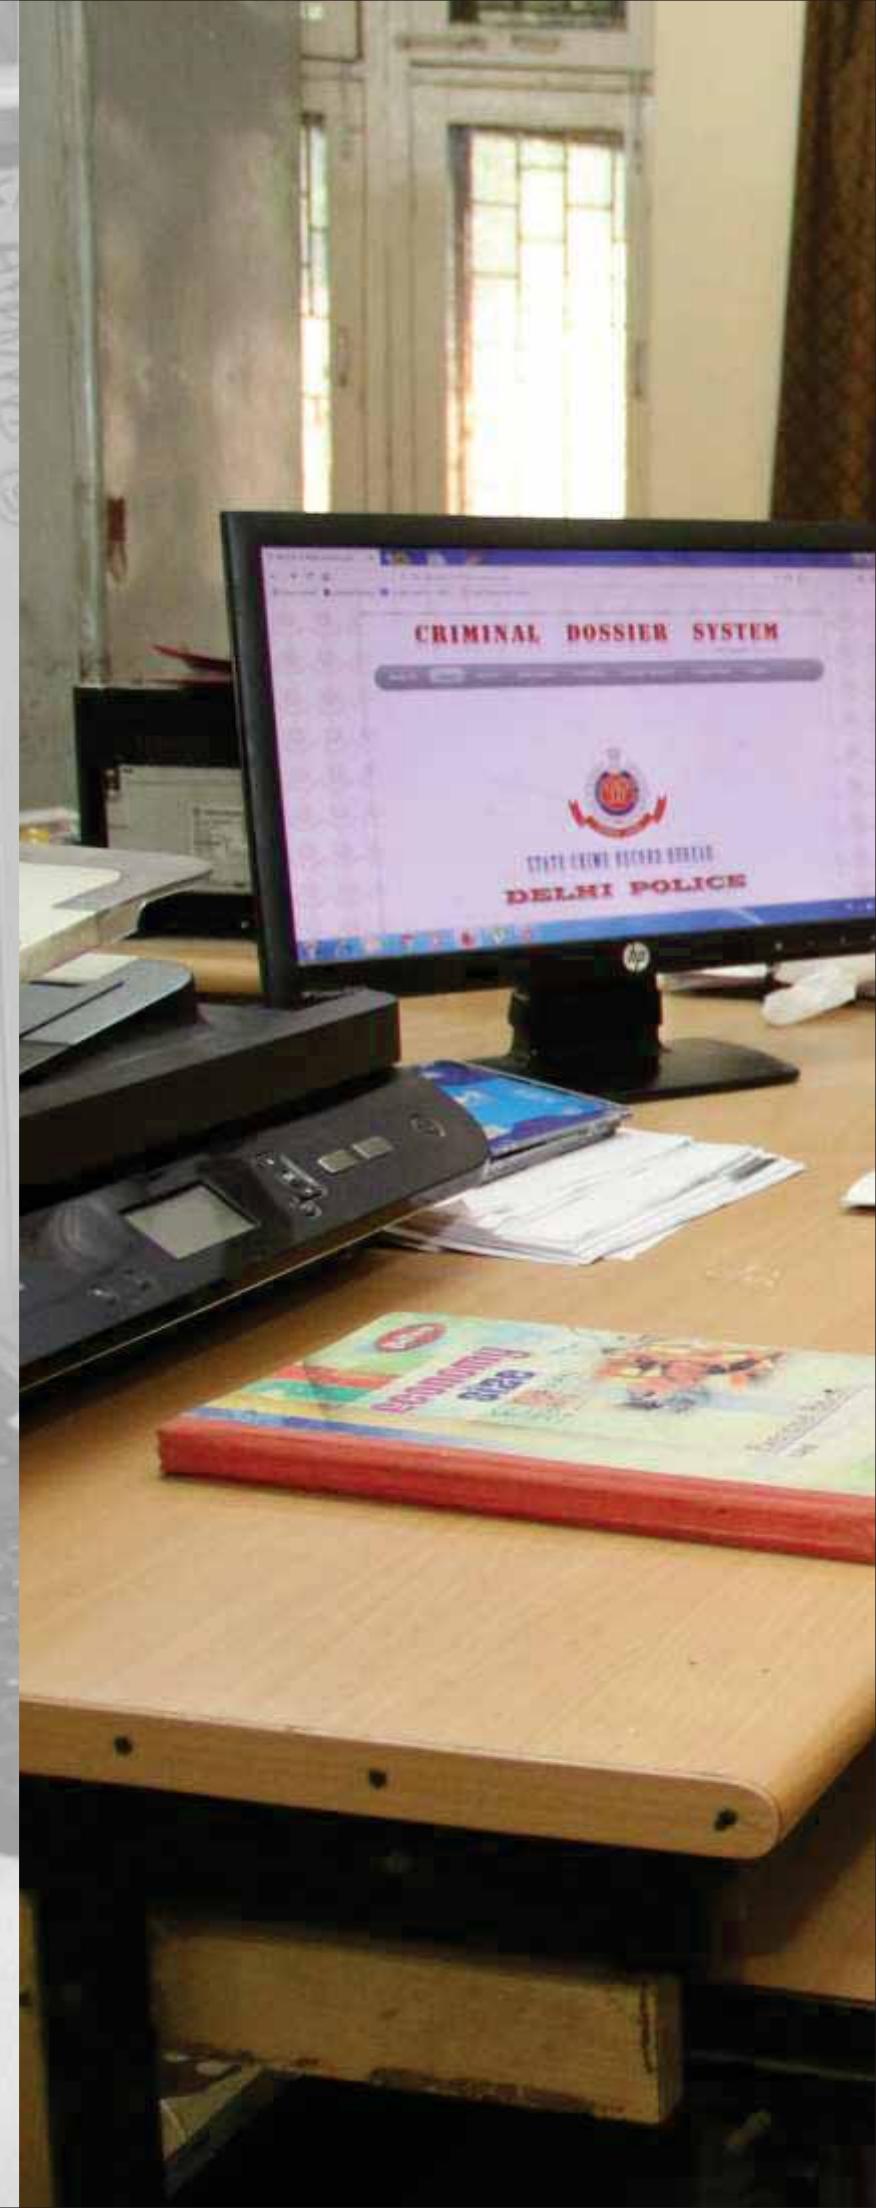

In 2000, the fully computerized Automatic Finger Print Identification System had been installed in the Finger Print Bureau of Delhi Police which stores the record slips of criminals in computer, and chance prints can be searched from this database much faster and accurately. At present, the system has more than 2 lakh record slips in the system and a number of cases have been detected since then due to quick identification of criminals by matching the records with chance prints lifted from the scene of crime. The system can also be accessed online for remote queries.

From Finger Prints Automatic Tracing System (FACTS) to Automated Finger & Palm Print Identification System (AFPIS)

In 2011, the Finger Print Bureau (FPB) of SCRB was equipped with the state-of-the-art Automated Finger & Palm Print Identification System (AFPIS), which collects Finger Print slips and record data from all the districts, Crime Branch, Special Cell and six lower Court premises in Delhi, on a real-time basis. This system has the facility of biometric verification of suspects through Criminal Remote Identification System (CRIS) linked with all the Police Stations in CIPA Network.

Computerized Remote Identification of Suspects (CRIS)

CRIS is a smart system based on Inkless Optical Live Scan Technology, which gives result without any manual intervention. Fingerprint of any suspect/criminal, when put on the input device, scans the image, and the result is displayed on the screen in quick time after searching the database. This system facilitates effective and efficient identity management of the suspects/criminals round-the-clock and speeds up the crime investigation and verification of record from the Finger Print Bureau on a real-time-basis.

City Surveillance System

Delhi Police has installed 'CCTV Systems' in a big way, covering important vulnerable areas/markets of Delhi, imparting a force-multiplier effect to field policing and surveillance. The CCTV coverage with zooming and recording facility has not only strengthened preventive deterrence and surveillance by the Delhi Police, it has also been of immense utility in detecting several important crimes.

Safe City Project

In this project, implemented under the 'Nirbhaya Fund', the National Capital will be woven around with modern digital and technological gadgetry so as to augment safety and security in the city. The system will utilize Facial Recognition, event-tracking and artificial intelligence to generate alerts at the control room from field devices. It also facilitates an evidence-based online monitoring system and creates a digital repository of assets, infrastructure and social outreach programmes.

Combating Cyber Crime

In Delhi, cyber crimes like Cyber stalking, Child pornography, Credit Card Fraud, Internet Banking Fraud, Fake profiles, phishing, Data theft, Nigerian Scam for lottery, Jobs, money of somebody's Will abroad & Emergency expenses, E-mail abuse, Chat abuse and other crimes are on the rise. Cyber Terrorism is also emerging as a growing challenge.

Keeping this in view, the Cyber Forensic Lab of the Economic Offences Wing of Delhi Police has been upgraded with the latest Software and Hardware equipment like 12 Software for analysis of large Mobile Call Detail Records, Access Data for analysis/recovery from seized Hard disks, Rainbow Tables to retrieve Passwords of encrypted Files.

All possible technical help provided to the local police and various police agencies of India on Cyber Crime Investigation has helped in detecting several cyber offences.

Cyber Forensic Van Launched on 5th July 2018

CyPAD

The Cyber Prevention Awareness and Detection (CyPAD) Centre, inaugurated in February 2019 is the advanced cyber investigation, prevention, forensic, training and awareness facility of Delhi Police. The Unit has the following mandate:

- I. Strengthen the cyber investigation ecosystem:
 - a. Investigate complex cybercrimes involving multiple jurisdiction.*
 - b. Assist sister units of Delhi Police in cybercrime investigations.*
 - c. Develop capacity of Investigating Officers of Delhi Police in advanced cybercrime investigation.**
- II. Coordinate prevention and outreach initiatives of Delhi Police to promote cyber safety amongst citizens.*
- III. Provide the best cyber forensic facilities to Investigating Officers of Delhi Police.*
- IV. Nodal Unit of Delhi Police for national initiatives on cyber safety, cyber investigation, cyber reporting, etc.*
- V. Act against spread of provocative and offensive material in cyber space.*

CyPAD houses the National Cyber Forensic Lab (NCFL) of Ministry of Home Affairs. The NCFL has the entire bouquet of forensic tools for assisting IOs during early stage of investigation, including tools for advanced memory & mobile forensics, malware analysis, cloud forensics, network forensics, and crypto forensics.

CyPAD, as part of its future roadmap, intends to create a world class setup of cyber simulation training (Cyber Training Range) to help Investigating Officers update and fine-tune their cyber investigation skills in a simulated environment.

Hon'ble Union Home Minister of India Inaugurated CyPAD (Cyber Crime Unit) on February 18, 2019 at Dwarka New Delhi

Law & Order : Persistent Challenge

Delhi, being the Capital of India, has been the nerve-centre of wide-ranging political, cultural, social and economic activities. For management of law and order in this scenario, the Delhi Police has planned and evolved over the years, rising to the occasion almost on a day-to-day basis.

LATHI TO MODERN ANTI- RIOT GEAR

Law enforcement officers have long used less lethal weapons such as batons and whips to disperse crowds and detain rioters. Since the 1980s, riot control officers have also used tear gas, pepper spray, rubber bullets, and electric Tasers. In some cases, riot squads may also use Long Range Acoustic Devices, water cannons, armoured fighting vehicles, aerial surveillance, police dogs or mounted police on horses. Officers performing riot control typically wear protective equipment such as riot helmets, face visors, body armor (vests, neck protectors, knee pads, etc.), gas masks and riot shields. Delhi Police has also shifted, over the years, from the traditional laathi to modern anti-riot gear.

Crowd Management Innovations

From an analysis of crowd behavior patterns, in 2017 the Delhi Police innovated with the APP (Anticipate, Plan & Prevent) principle to good results. Deployment was oriented towards crowd composition, with a thrust on an officer-oriented approach, particularly to deal with youth demonstrations. With the guidance of the Hon`ble Supreme Court, in 2018 limits were also introduced to the hitherto uncontrolled mass demonstrations at Jantar Mantar.

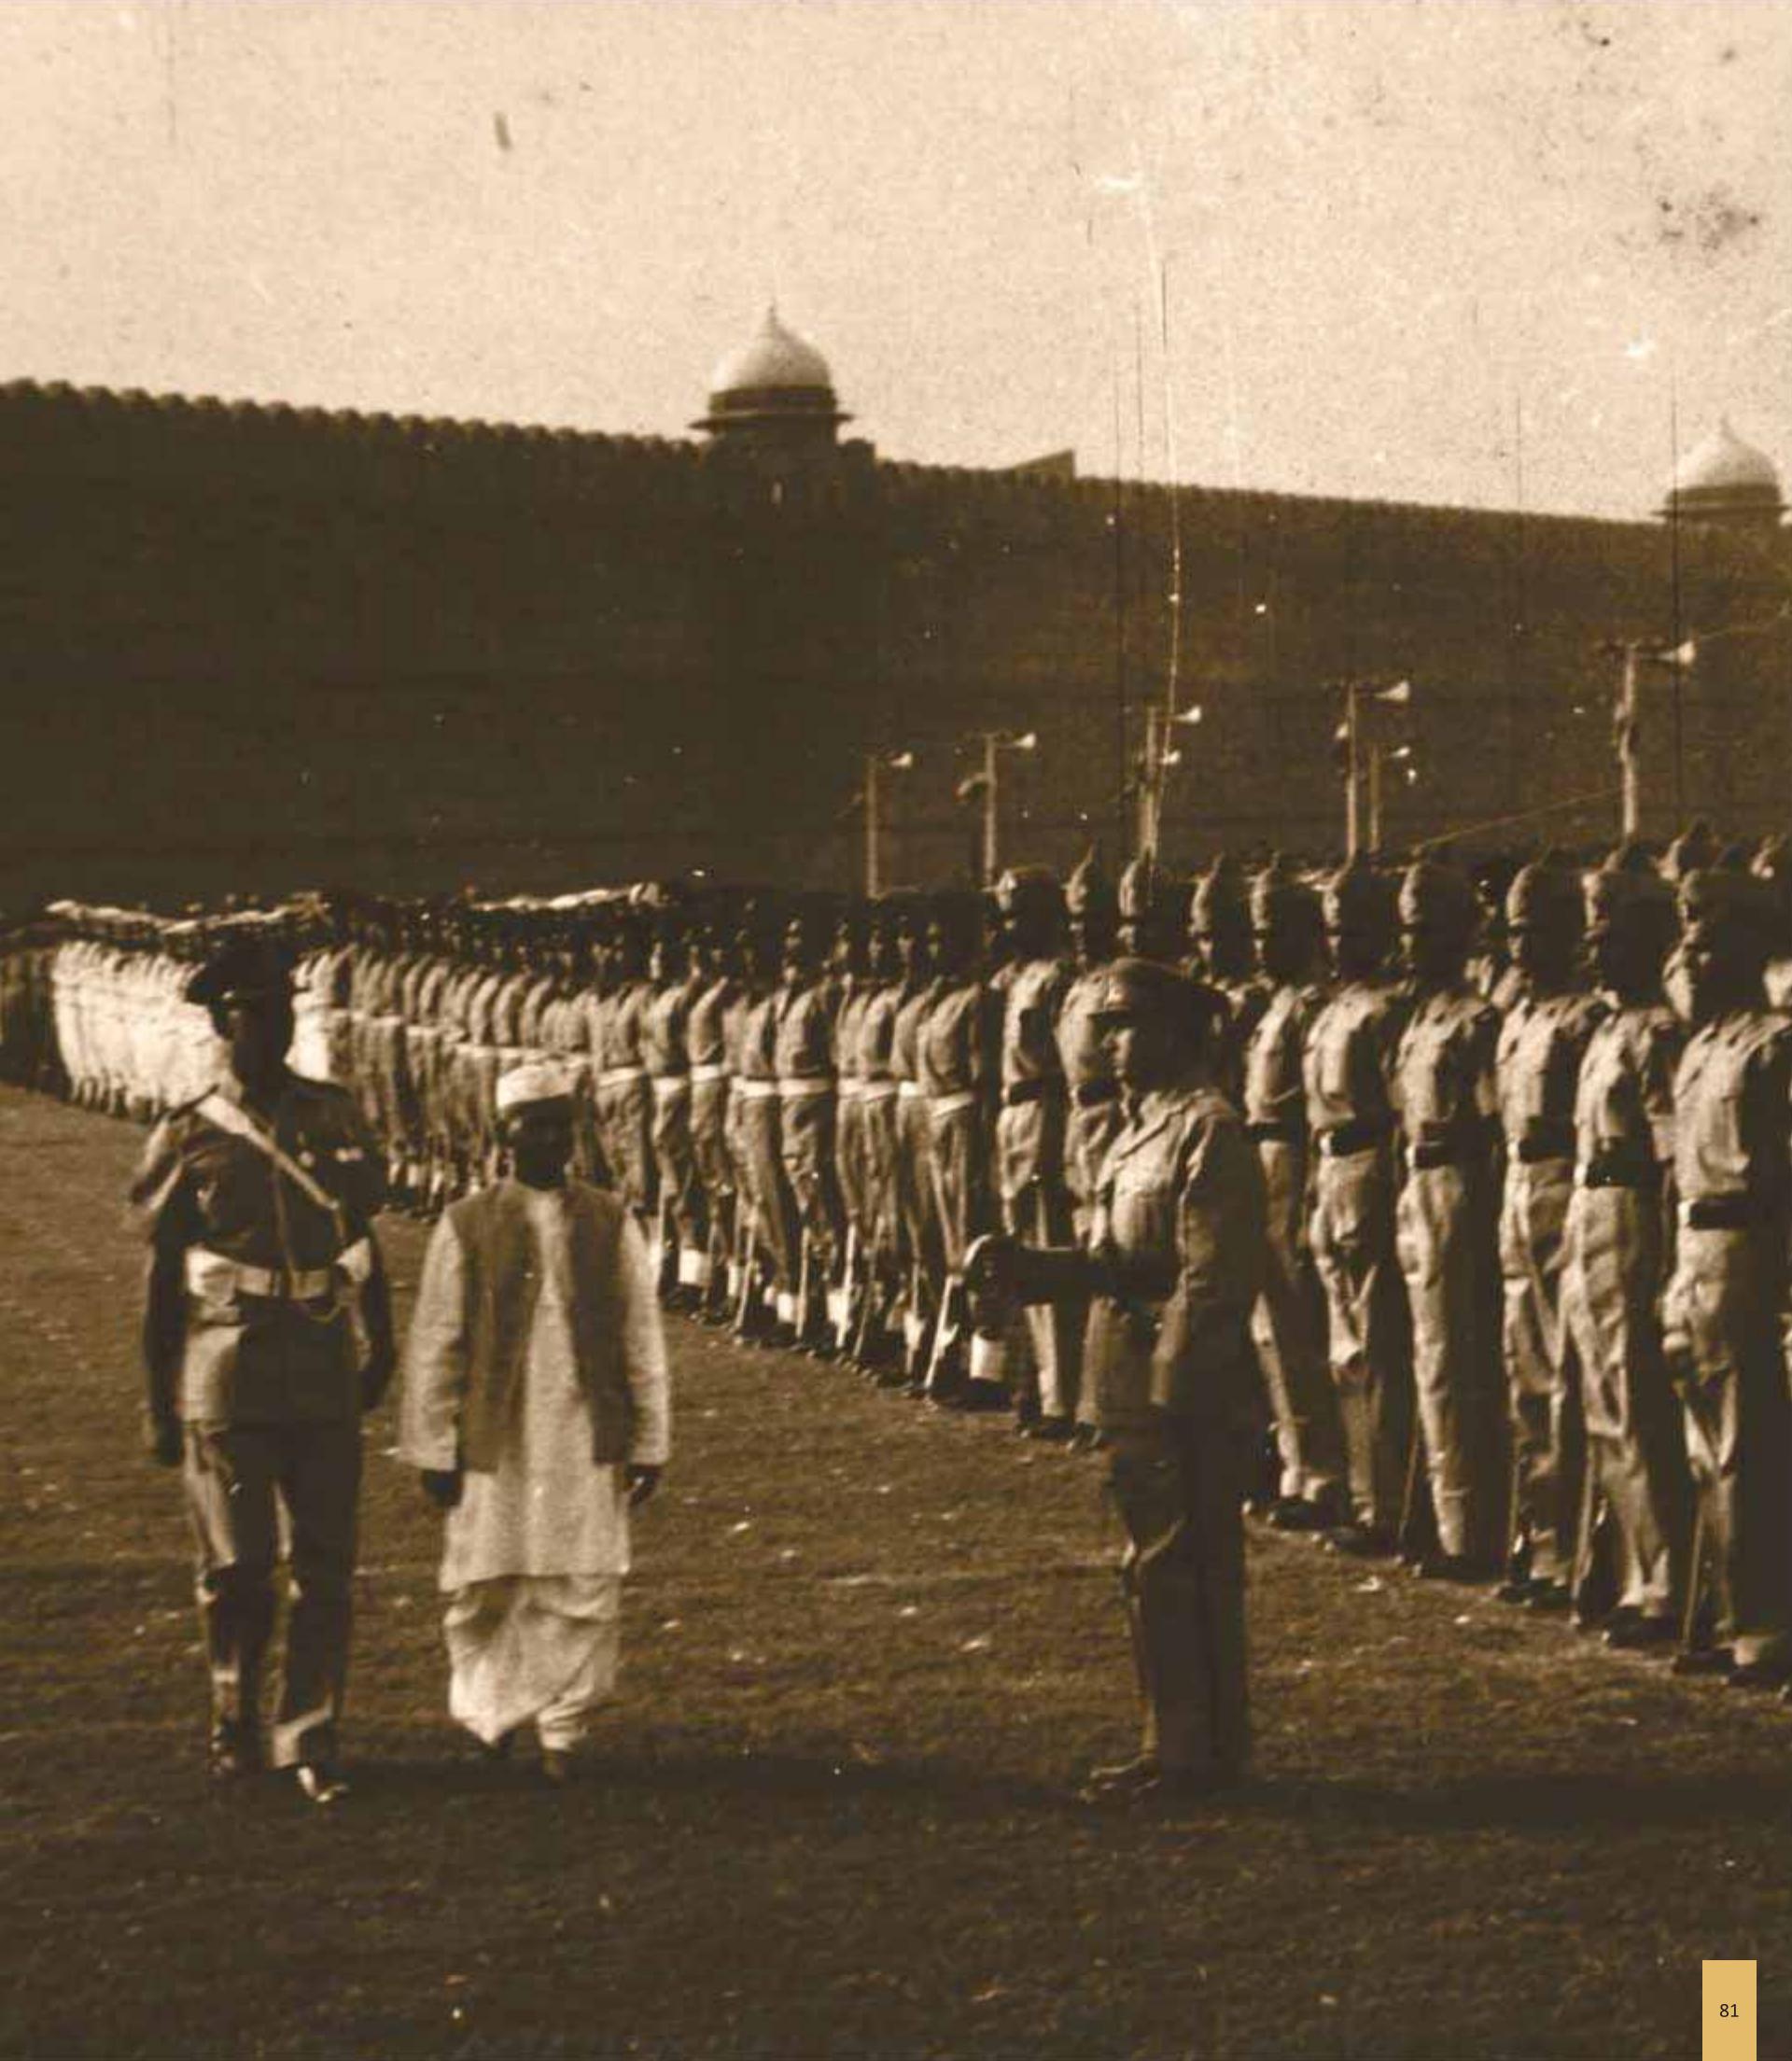

Security Administration

Delhi being the seat of Central & State governments, other constitutional bodies, foreign missions and judiciary, security of important functionaries and of establishments continues to be a cardinal priority for Delhi Police. The Security Branch of Delhi Police handles all functions of high dignitaries as well as international conferences and conventions in the National Capital on a day-to-day basis.

President of India, First Lady Smt. Savita Kovind, Prime Minister of India, Vice-President of India with ASEAN Leaders at Mughal Garden, Rashtrapati Bhawan, New Delhi on 25th January, 2018

Fighting Terror

Over the years, Delhi Police has efficiently maintained peace and order in the face of increasing terror threats, and thwarted all possible attacks through effective surveillance, collection of intelligence and speedy investigation of cases against terror outfits.

Special Cell

The Special Cell of Delhi Police is the National Capital's specialized Counter-Terror Unit. Apart from its primary mandate of preventing, detecting and investigating incidents of terrorism, the Special Cell also deals with terror associated/ancillary criminal activities of narcotic and psychotropic drug syndicates, gun runners, fake Indian currency notes (FICN) circulation and other forms of organized criminal activities in the National Capital.

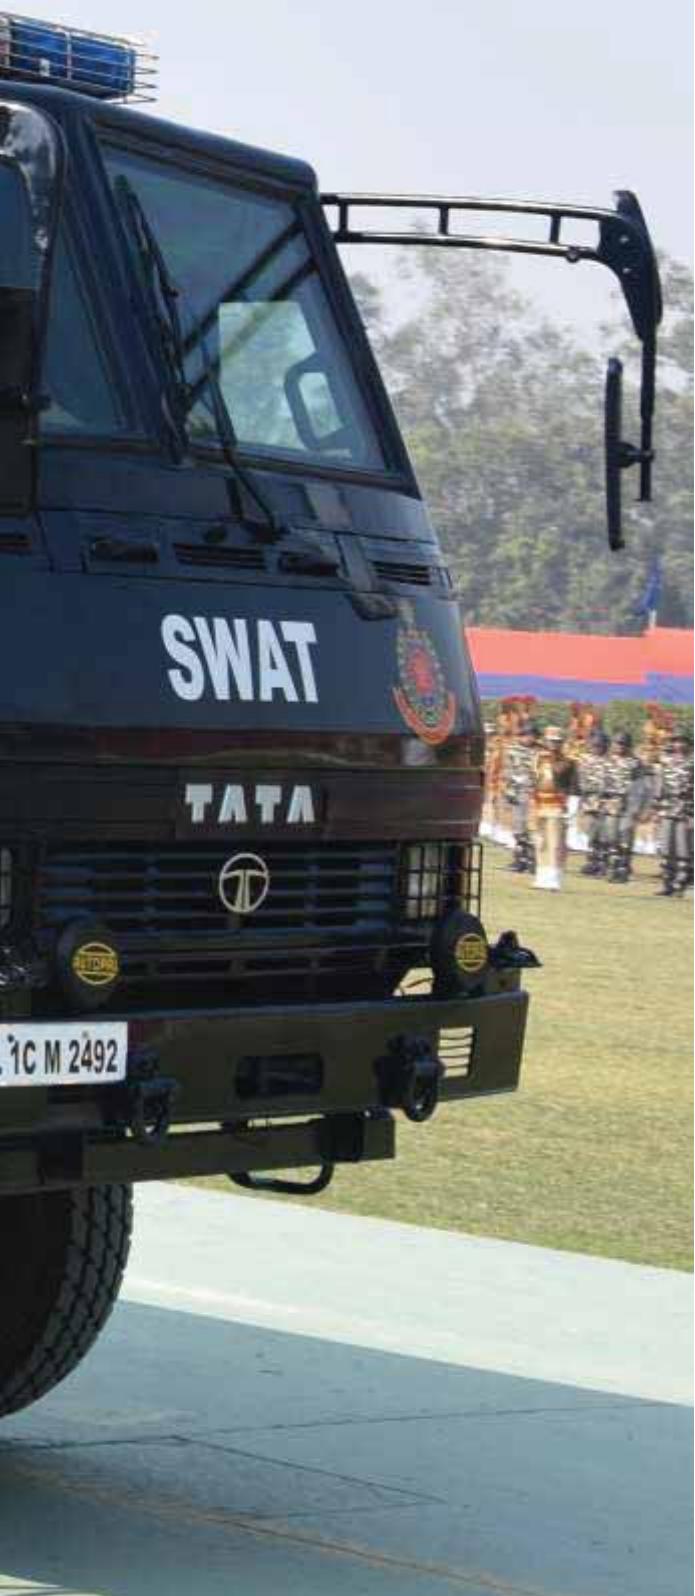

SWAT

At a time when different outfits of terrorism continue to threaten the economic and social fabric of the country, the specialized SWAT Commandos of the Delhi Police have been highly effective in countering such threats, and providing a conducive environment for growth and development in the National Capital.

SWAT

Bullet Proof Marksman for use in commando operations with Snipers Turrets

Rakshak - Anti Terror Vehicle for Potent Armed Response to Hostile situations

Full Bullet Proof LATC for swift Transportation of SWAT Commandos with Urban Welfare Logistics

All - Women SWAT

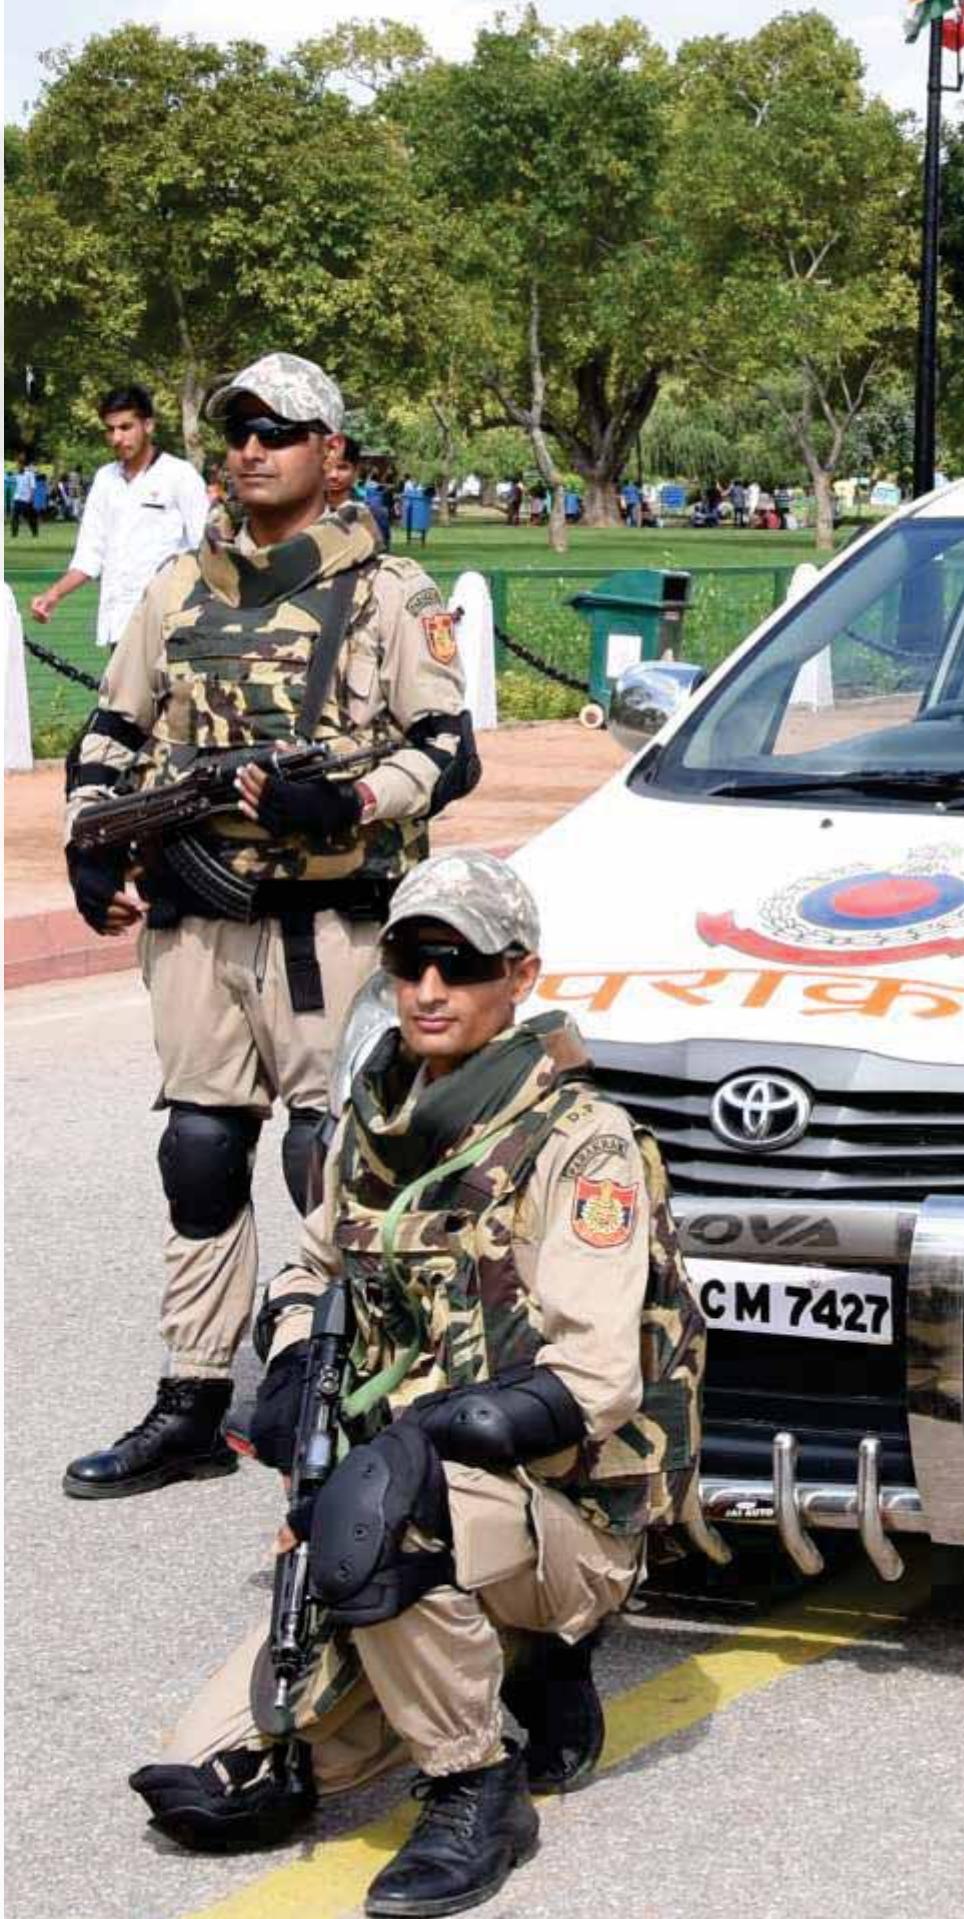

All-Women SWAT Commando units are well trained in unarmed combat, ambush and counter ambush, and urban operations, were created in the Delhi Police in 2018 – the first of its kind in the country.

PARAKRAM

With a primary aim to instill a feeling of security and safety among citizens by virtue of their visibility and deterrence as also to respond to real-life armed situations promptly, a dedicated fleet of 'Parakram' Commando vans were launched in 2017. 30 such vans have been deployed at strategic places as anti-terror backup to SWAT Commandos in the city.

Quick Response Teams

The QRTs, equipped with hi-tech weapons, are the first responders in any terror situation. Their personnel undergo constant training to keep abreast of the latest challenges and response mechanisms.

Bomb Detection Squad and Bomb Disposal Teams

The BDS & BDT are an integral part of the Delhi Police, positioned in every district with a mandate to prevent and pre-empt anti-national activities by use of explosives. The BDS & BDT are extensively trained to handle and defuse explosives and Improvised Explosive Devices. Equipped with state-of-the-art gadgetry, they are also entrusted with the task of carrying out anti-sabotage checks during VIP visits as also to respond to terrorist-related alerts.

Traffic Management

Traffic Police

With the vehicular population approx. 1.08 crore and the road length is merely just about 33,000 kms, traffic management in the NCT of Delhi is a herculean task for the Traffic Police. Despite all constraints, however, the Traffic Police is sincerely engaged in the task of managing traffic and ensuring its smooth movement.

Delhi Traffic Police Interceptor

e-challan by Delhi Traffic Police

Traffic Training Park

Road Safety Awareness at Delhi Traffic Training Park

Enforcement

Delhi Traffic Police is implementing e-Challan system through NIC on turnkey basis for challaning electronically, maintenance of records of past traffic violations, payment through e-gateway/credit/debit card/internet banking. The e-challan system also facilitates issuing notices through SMS to traffic violators.

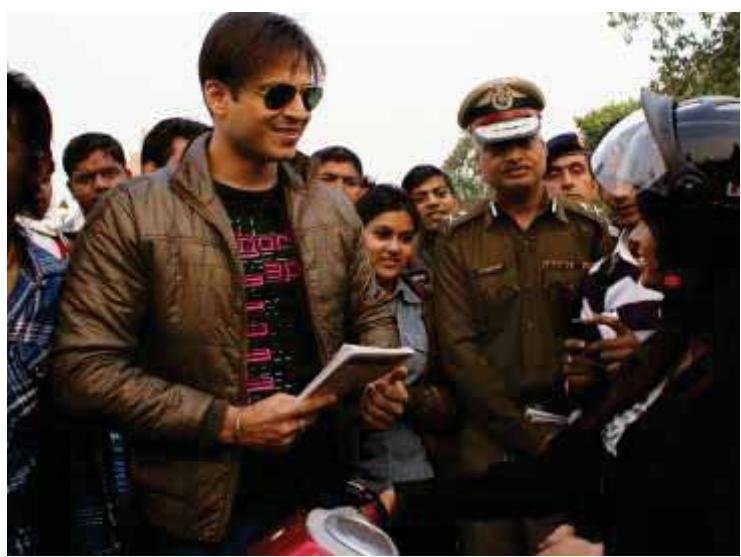

Education & Awareness

Road Safety Campaign and Celebrities for Awareness

Concerted education outreach with special emphasis on safety of school children, pedestrians, differently abled persons and senior citizens are undertaken and special emphasis is put on intersection discipline. The road safety staff of Traffic Police visit schools, displaying mobile education vans at important and vulnerable locations and distribute pamphlets on road safety to various road users of Delhi. Film shows for imparting road safety education are also organized for general public in various parts of Delhi.

Use of Technology

Digital Devices, Body Worn Cameras, Interceptors, Google Maps, Variable Message Signs (VMS) and Hand-held Speed Detection Cameras are being utilized extensively by Delhi Traffic Police for enforcement and regulation.

Intelligent Traffic Management System (ITMS)

Visualised as the long-term solution to traffic problems in the National Capital, the ITMS is an advanced technological project being implemented under the aegis of the Ministry of Home Affairs. ITMS is an AI-based integrated system of signal regulation mechanisms speed measurement devices, violation check cameras, and mobile traffic law enforcement units (interceptor), the output of which will be compiled at traffic control room for stricter road rules enforcement and smoother traffic management.

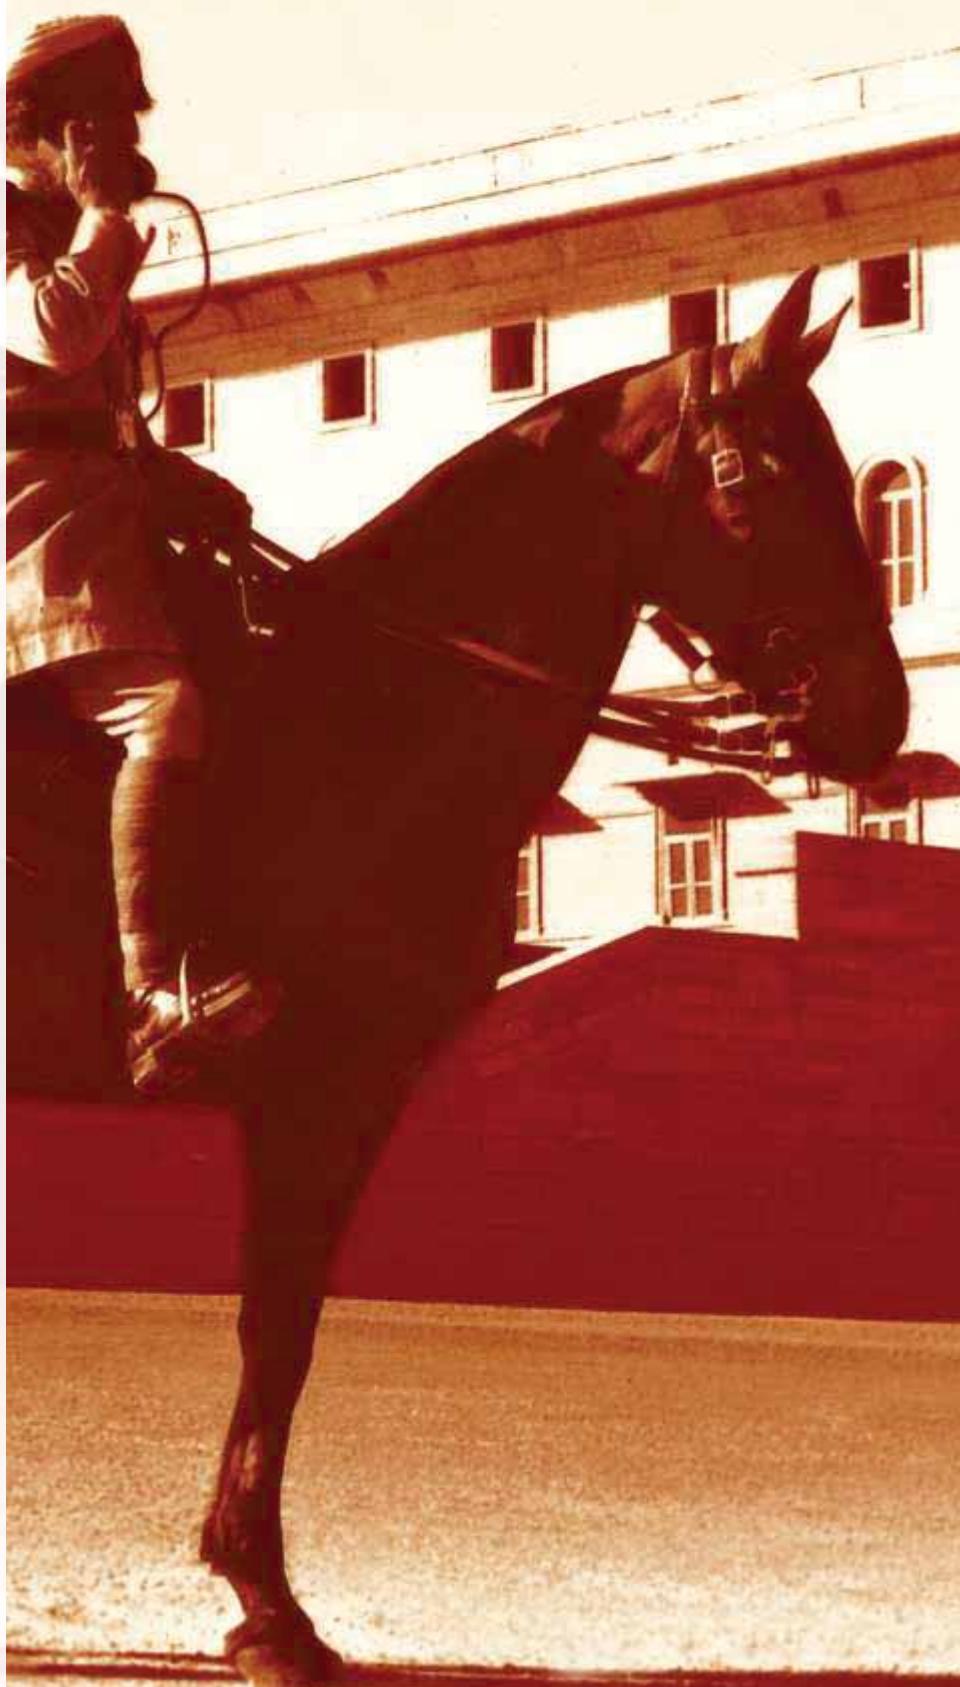

Disaster Management Vehicle used by Delhi Traffic Police

Modernization Of Delhi Police

Communication

A reliable and effective communication system is as critical to policing as the nervous system to the functioning of the human body.

Presently, the communication set up of Delhi Police is working on Simplex, APCO and TETRA network. Communication is provided to all Police Stations (Territorial and Non-Territorial), Pickets, Check Posts, Traffic, VVIP/VIPs Security arrangements, Motor Cycles, PCR Vans including Ambulance & Tourist Vehicles to maintain Law & Order. All the wireless stations are being controlled by the concerned District and Unit Control Rooms in addition to the Central Police Control Room functioning from Police Headquarters till now, has been shifted to Integrated Complex, Shalimar Bagh with the commissioning of ERSS 112 on 25th September, 2019. The Ops & Communication Unit provides communication facility to all Control Rooms and officers round-the-clock. In case of any contingency/ disaster, Mobile Control Room, Mobile Repeaters and Satellite Phones are available for providing Communication. Besides, Wireless Integrated Public Address System (WIPA) is installed in Delhi for required announcements to spread awareness in public.

Functioning of Delhi Police Central Control Room

Weaponry

Weaponry is essential to any police organization that upholds the law as the means to enforce it.

In the past, the laathi was the sole weapon of the police. Later, the spear and the sword were used. In the Company days, the rifle was introduced, first the Brown Bess and then the Enfield. The pistol was also brought in. But firearms were used rarely and the traditional laathi was the main weapon. The .303 Rifle was inducted later. Delhi Police has been upgrading its weapons and now it has state-of-the-art weaponry, comparable to the best in the world.

Transport

The police need adequate transport to reach quickly on scene of crime, for providing security to VVIPs and for mobilising manpower to deal with any law and order situation. Preventive work calls for patrol vehicles and flying squads. Earlier in Delhi Police, cars like Ambassador, motorcycles like Enfield, Trucks, Buses, Jeeps were used to perform operational, unforeseen & statutory duties. At present, vehicles are used for Quick Response Teams, Emergency Response Vehicles, Anti-terrorist measures, Riot Control, Patrolling, Traffic Management, command duties, production of UTPs, besides, providing security to VVIPs/VIPs including the top leadership of the country, diplomats, vital installations etc. Delhi Police has added specialised vehicles like Water Cannon, Mobile Control Room Van, Vajra, Bullet Proof Vehicle, Forensic Van, Bomb Detection & Disposal Squad, Traffic Interceptor, Mortuary Van etc. in the fleet for specific duties.

Initiatives That Formed Smart Policing

Police Assistance (100)

Lifeline of Delhi Police and it's the first thing that strikes in everyone's mind i.e PA - 100, the 24x7 emergency helpline. With over 60,000 calls per day, the sheer volume speaks about its reliability and popularity.

Central Police Command Room (CPCR)

CPCR is the pivot for the Integrated Command Control, Coordination and Communication (C4i) functions between various units within Delhi Police and other external organizations. CPCR Complex integrates the various kinds of communication systems. The staff working on various sections of this CPCR constantly coordinates with more than 70 other control rooms in Delhi and all over India to facilitate a host of activities.

PA – 100 extended to police stations and integrated with CCTNS

Integrated Command, Control Coordination and Communication System (C4i)

The Integrated Command, Control, Coordination and Communication (C4i) system established at the Police Headquarters, Delhi provides a comprehensive operational view of the law & order and crime situations in the city on a common platform. The C4i enables close supervision and operational handling of incidents of a serious nature as also of major law & order arrangements, and acts as an integrated decision support system for the Delhi Police, providing a mechanism for accelerated response to communal and terror situations.

Live Crime Mapping

Crime Mapping, Analytics & Predictive System (CMAPS) is being operationalized by Delhi Police in partnership with Indian Space Research Organization (ISRO) under the aegis of 'Effective use of Space Technology-based tools for Internal Security Scheme'.

CMAPS has been built with free and open source tools also for analyzing non-reported crime, which includes automotive geo-tapping and classification, and advance predictive analysis modeling trend, crime behaviour pattern and migration of hotspots.

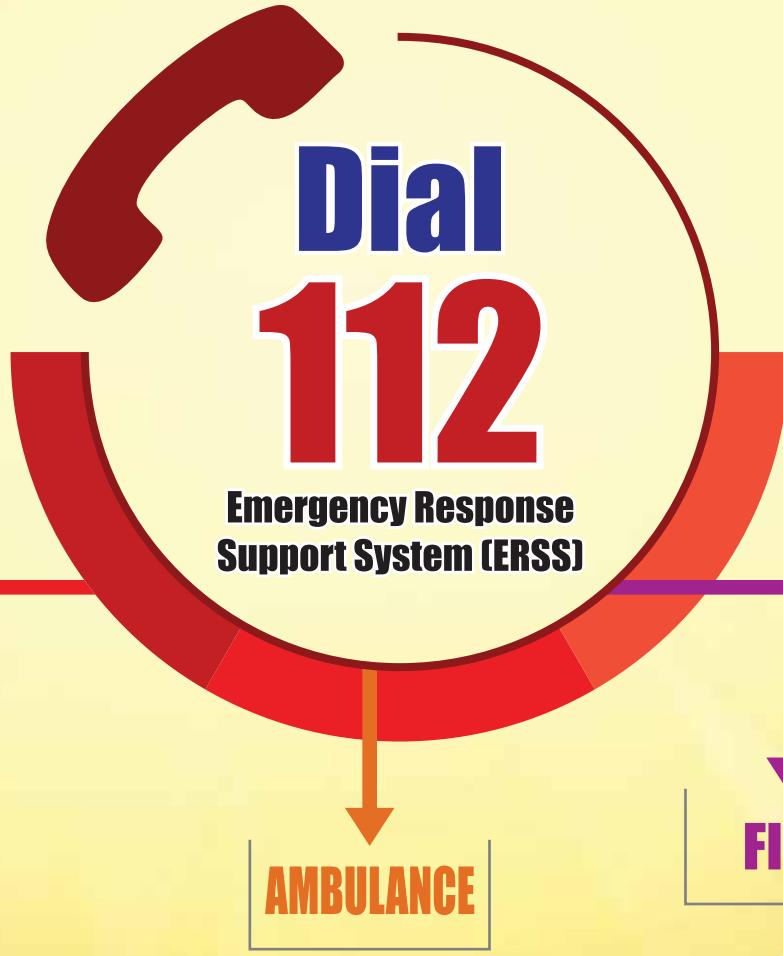

ERSS 112

Delhi Police now has the most encompassing emergency response support system to cater to the enormous volume of emergency calls received from various quarters. The ERSS-112 is a Single Emergency Number for emergency services i.e. Police, Fire and Ambulance. With the implementation of new ERSS – 112 system, the police response time is reduced tremendously, and the call simultaneously passes to the Police Control Room as well as to at least nearby 5 persons through a mobile App for help to the person in need.

AMBULANCE

FIRE

Nigehban

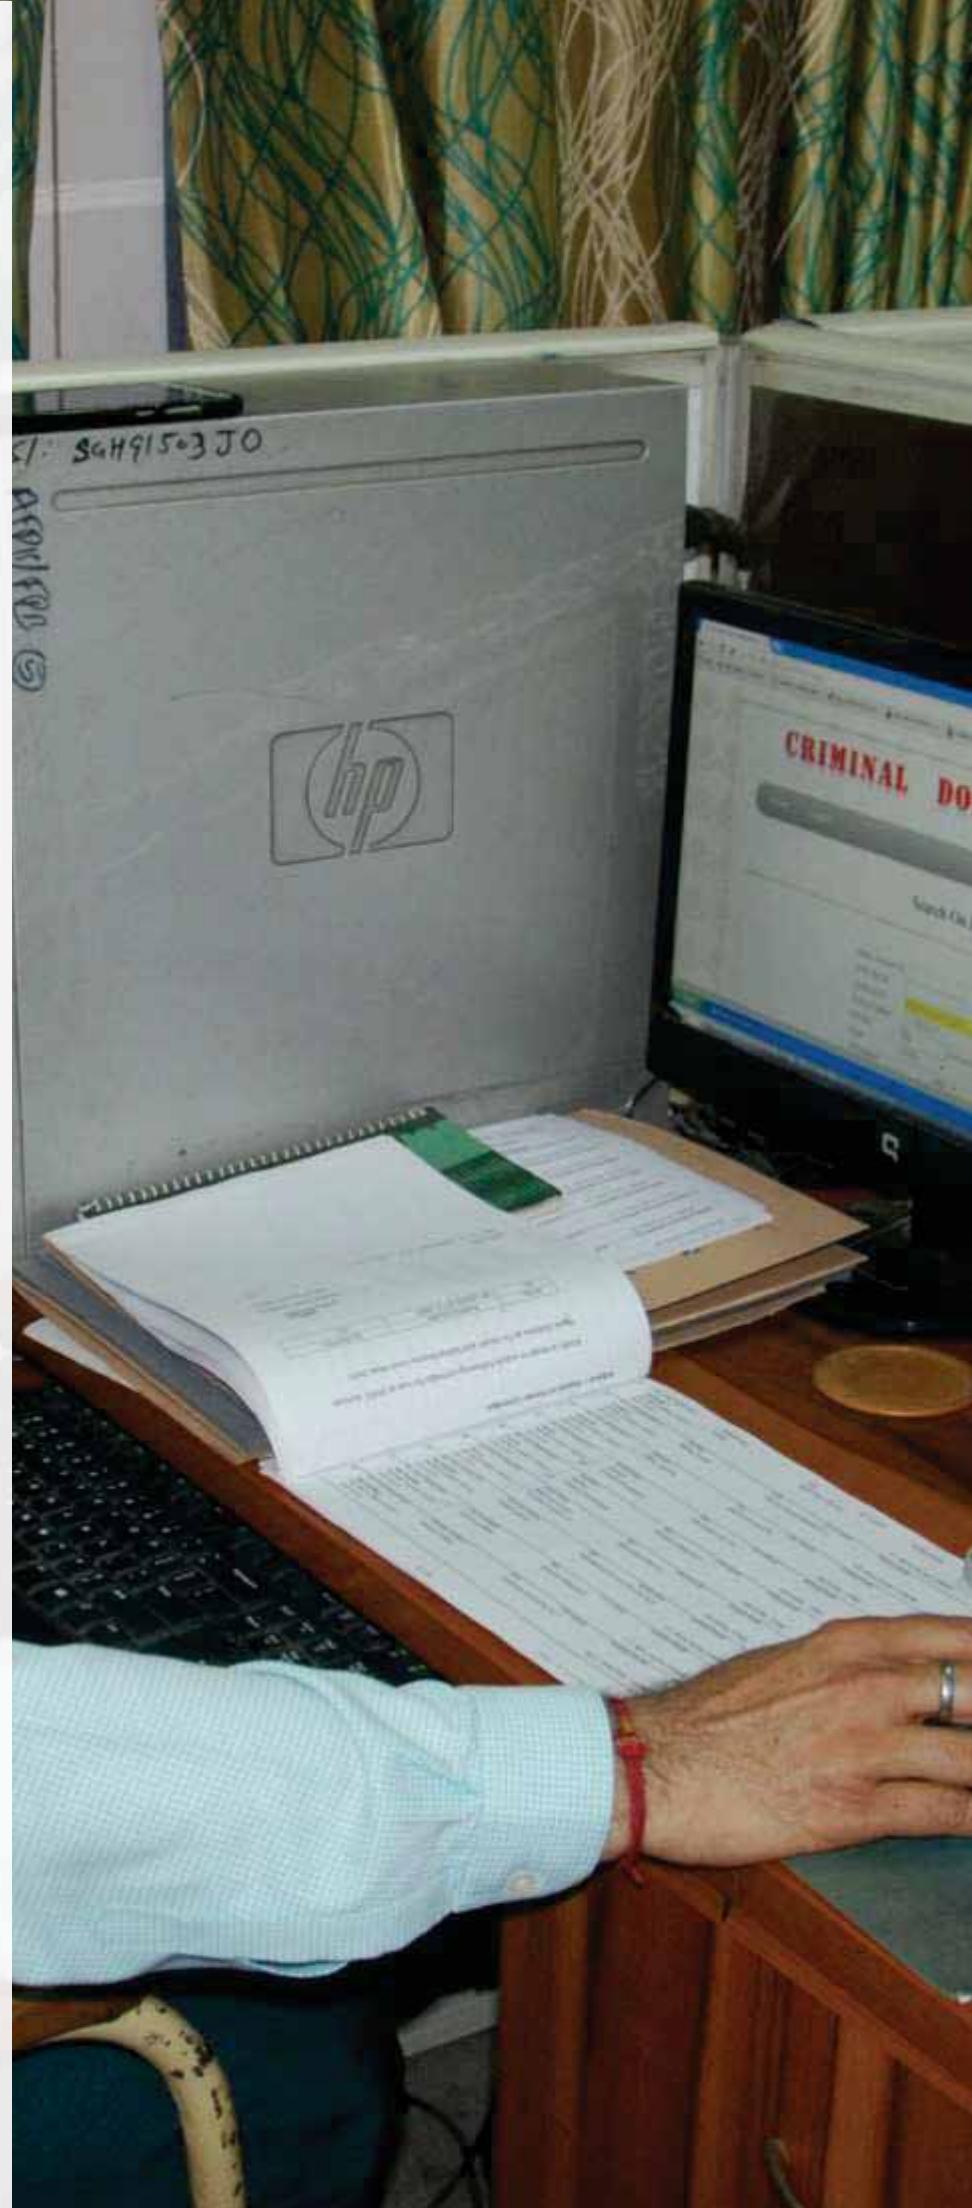

Under this unique scheme, with the active participation of the citizenry, Closed Circuit Television (CCTVs) are installed for day-to-day surveillance, crime prevention and monitoring of illegal or suspicious activities. Given the popularity, concentration of people and sensitivity of the surrounding areas, Delhi Police has already been making the extensive use of these CCTV cameras to ensure close supervision, conduct post-incident analysis and collect necessary legal evidence.

Intra DP

The Intra DP is a bouquet of applications and information repository developed by the Information Technology Centre of Delhi Police to assist Delhi Police in man-management, recruitments, promotions, complaint-monitoring and sharing of information between different units of Delhi Police. Intra DP has been developed in a manner that it is accessible on all the computers/nodes, connected through Cyber Highway, up to the level of police stations.

CRIMINAL DOSSIER SYSTEM

Dossier System

The Dossier System is a web-based application developed at the Computer Centre. This application enables online enquiry at police stations by the Investigating Officers on any one or multiple parameters. It also facilitates online updating of record directly from police stations. This application integrates with the Computerized Remote Identification System enabling online queries from either of the systems.

Digitization of Police Records – CCTNS

This project aims at creating a comprehensive and integrated system for enhancing efficiency through adoption of the principles of e-Governance, and creation of a nation-wide networked infrastructure for evolution of IT-enabled state-of-the-art tracking system. It also provides for a reliable interface for basic services to citizens.

Delhi Police, as on date, is perhaps the only State that has already adopted the policy of digital time stamping on documents on real-time basis. With this initiative police documentation has become completely transparent with the central server time-stamping on investigation documents created through CCTNS.

Online Cyber Safety Website : A website on cyber safety www.cybercelldelhi.in has been launched by Delhi Police to have proactive communication with the citizens on cyber safety issues and to provide a responsive cyber crime reporting mechanism for the victims. Various safety precautions that are needed to keep one safe from such crimes are also mentioned. It also has a special section on the various 'Do's' and 'Don'ts' for internet users. The website provides detailed information to victims of cyber crime regarding how to lodge a cyber complaint and the documents required for lodging each type of cyber crime.

ONLINE TRANSACTIONS FRAUDS

In such instances, the criminal always targets those individuals who make online transactions through their credit/debit cards through online shopping. In most of these cases, you have to file a case for filing criminal information of the complainant.

1. The 16 Digit Credit/Debit Card Number
2. The validity of the Credit/Debit card
3. The 16 Digit Credit/Debit Card Verification Value (CVV) or the One-Time Password (OTP) and the registered mobile number of the Credit/Debit card

Note: It may be that the Card Number and the validity of the card is made available in the fraudsters through model or the bank, the OTP is provided by them by deceiving the account holder to submit the CVV so that profit shall be ensured for account verification.

Preventive Measures/Precautions:

- 1. Don't give your account details to anyone on the phone unless you've made the call to a company you know to be legitimate. If you're never sure about someone until there before, do an online search for the previous 12 assessments.

Cyber Crime

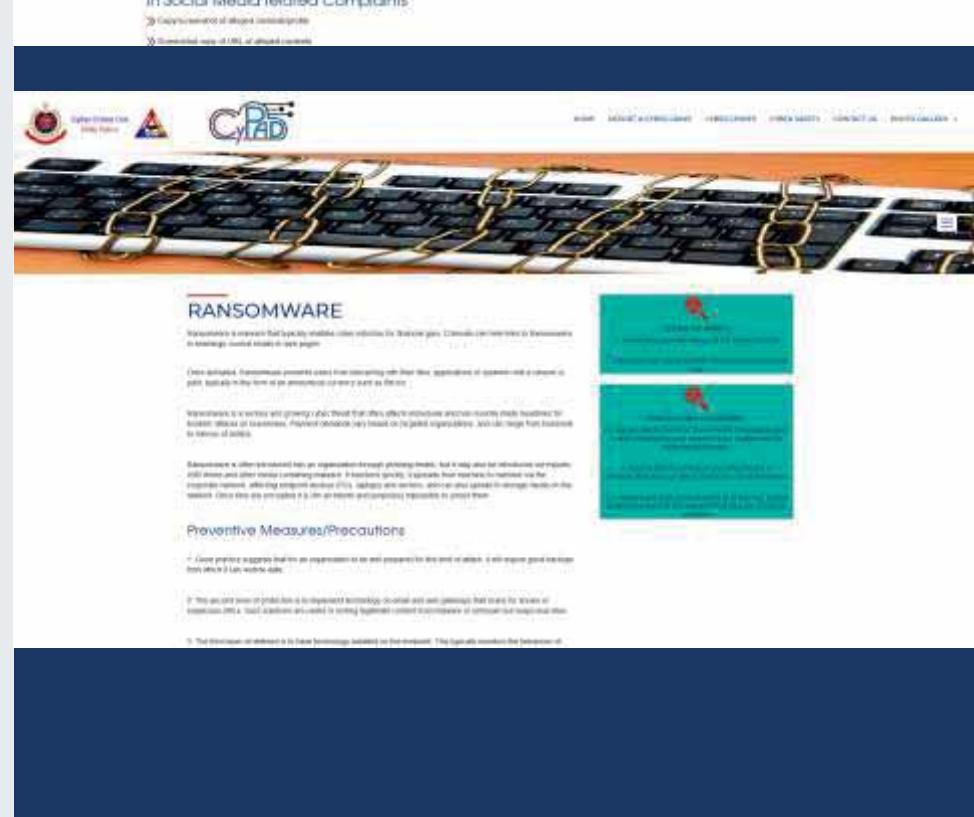

DOCUMENTS REQUIRED TO MAKE A COMPLAINT

In Email related Complaints

- 1. A written Complaint mentioning the complainant's name
- 2. Copy of the alleged Email
- 3. Letter should be taken from the original receiver. Copy of the forwarded email should be avoided
- 4. Full header of the alleged Email
- 5. If copy of email and header should be in soft form & soft form
- 6. Soft copy should be given in a PDF format
- 7. How to view Full Header of Email

In Social Media related Complaints

- 1. Copy/paste of alleged content/post
- 2. Downloaded copy of URL of alleged content

RANSOMWARE

Ransomware is malware that typically encrypts certain files on the victim's computer. Criminals demand ransom for the decryption key usually in the form of Bitcoin or similar cryptocurrencies.

Ransomware is a vector that grows rapidly through the other, often intrusive and recently more sophisticated forms of勒索软件 or勒索病毒. Payment demands vary based on the paid ransomware, and can range from thousands to millions of dollars.

Ransomware is often introduced via an organization's threat phishing emails. And it's why user education and regular IT audits are still the most common measure to prevent such attacks. It spreads from machine to machine via the corporate network, utilizing endpoint detection (EDR), endpoint detection, and an alert system to disrupt the attack. Once this has been copied it is then an intense and complex process to prevent these.

Preventive Measures/Precautions:

- 1. Create awareness amongst employees to be alert for suspicious links and attachments in emails, and ensure good practices such as 2-factor authentication.
- 2. They are very clever or good form of an advanced technology to conceal and even bypass that to any kind of security measures like firewalls, load balancers are used to testing legitimate content transmission or consume but they could still bypass them.
- 3. The information or message is to have something hidden in the message. This usually involves the behaviour of

CYBER SAFETY TIPS FOR NET BANKING USERS

- Password protect the mobile phone having your banking application. It is recommended to set the maximum number of incorrect password submissions no more than three.
- Choose a strong password to keep your account and data safe.
- Review your account statements frequently to check for any unauthorized transactions.
- Change your password regularly.
- Report a lost or stolen phone immediately to your service provider and law enforcement authorities.
- Never give your PIN or confidential information over the phone or internet. Never share these details with anyone.
- Don't click on links embedded in emails/social networking sites claiming to be from the bank or representing the bank.
- Don't transfer funds without due validation of the recipient, as funds once transferred cannot be reversed.
- Don't store sensitive information such as credit card details, mobile banking password and user ID in a separate folder on your phone.
- Don't forget to inform the bank of changes in your mobile number to ensure that SMS notifications are not sent to someone else.

CYBER SAFETY TIPS FOR CHILDREN

- » Never share your personal details like house address, phone number, date of birth and place of birth etc. on any online platform such as Facebook, Instagram, Blogs, Twitter, Chat-rooms etc.
- » Make sure that indecent/offending/harassing emails/chats posts are not be responded. Rather keep them in records in the form of screenshots and inform your parent/guardian to report it to the police. The account should be immediately blocked.
- » When you feel uncomfortable with any SM post/mail/chatting, immediately share your concern with your parents or any trustworthy person.
- » Never share your account passwords with anyone.
- » Be aware that information on the internet is not always reliable.
- » Make a strong password with alpha-numeric symbols and special characters.
- » Don't add people as online friends unless you know them in real life or have parent permission.

Digitization of case properties i.e.

E-Malkhana :

A project to modernize and digitize the Malkhanas was taken up by Delhi Police. Under the project, existing case properties have been digitized by providing unique bar code IDs and appropriate packaging in an infrastructural upgraded Malkhana room. Details of the case property along with their photographs are stored in the software. The case property is packed with a unique bar code pasted on the card board boxes and then placed onto a specific almirah or rack whose details are entered in the software. This makes the location of any case property item smooth and easy at the simple click of a button.

Nipun : Nipun, an e-Learning portal, aims at giving online training and information through specialized courses designed by experts in the field. With training resources available online, it is expected that the Police Officers will be able to take the benefit of this facility even during the course of their duty.

e-Saathi

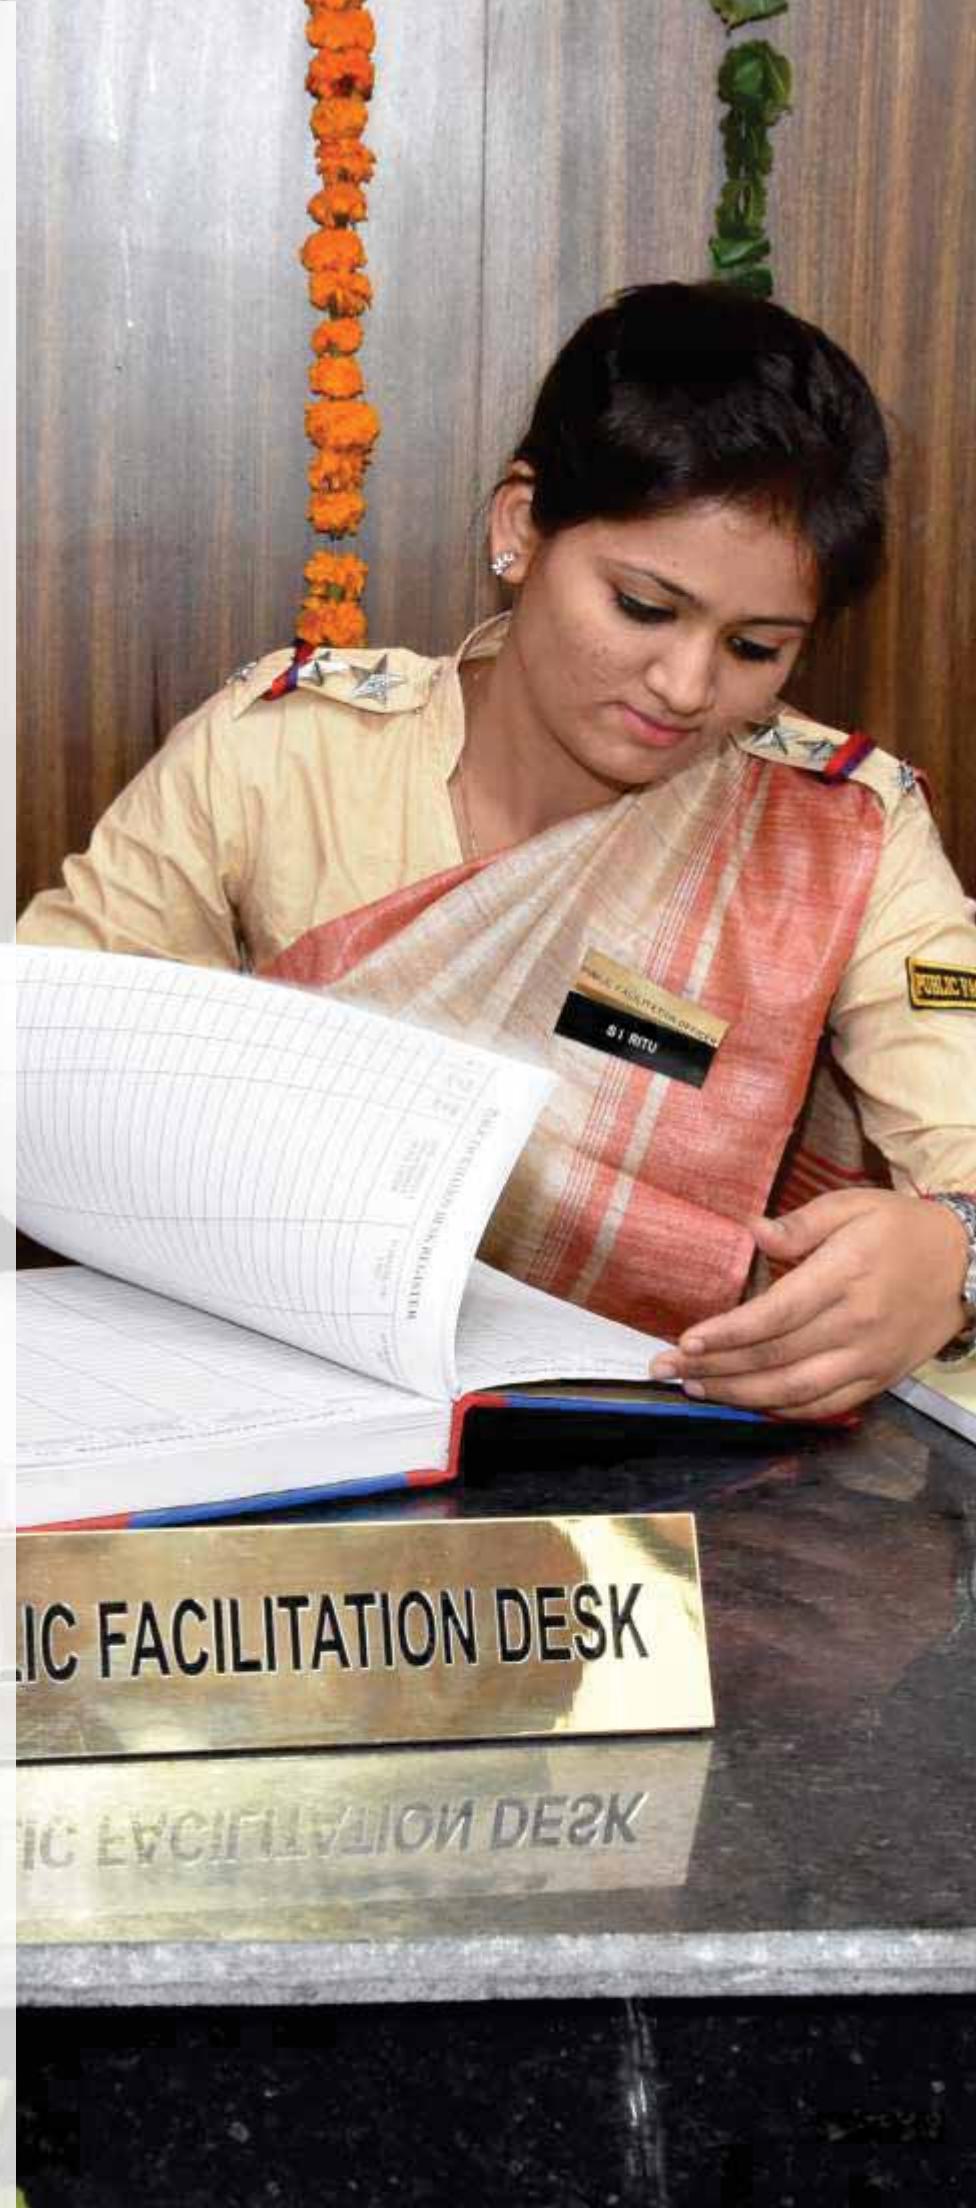

A unique project of Delhi Police digitally empowering the Beat Officer so as to keep him updated with all critical information about his beat as also to facilitate smooth service delivery on his part to the area citizens. e-Saathi facilitates smooth and friendly interface of Residents Welfare Associations, Market Welfare Associations and senior citizens with their local beat officers. It apprises users about the name of the local police station and area beat. Geo-fencing of police station and police beat boundaries through the app enables users to instantly access details pertaining to the local police station as well as contact details of the area SHO with a single click. As soon as a citizen shares his issues or problems via the app, an intimation is sent to the mobile of the area SHO who assigns a local beat officer to visit the aggrieved and address the concern.

Service Delivery : Constant Endeavour

Ensuring better service delivery to Delhi Citizens has all along been a key focus-area of Delhi Police. On this front, we have made consistent efforts to facilitate redressal of grievances, and digitisation of our service delivery modes has also been an area of constant endeavour.

e-Arms License

The “Online E-Arms Licensing System” was launched by Delhi Police in 2018 to simplify the process of issuance of licenses in respect of:

- Issue of new arms licences;
- Renewal of existing arms licences;
- Extension of area validity;
- Registration of arms licences issued from other States;
- Addition/conversion of weapon(s).

The system has been designed, developed and implemented after consultations with all stake-holders and I.T. professionals and, as on date, Delhi Police is the only police organization in the country to have extended such a facility.

The system minimizes the physical interface between the applicants and the Police/Licensing Unit before the grant of Arms Licence, and other related services and ensures time-bound service delivery.

LICENSING UNIT

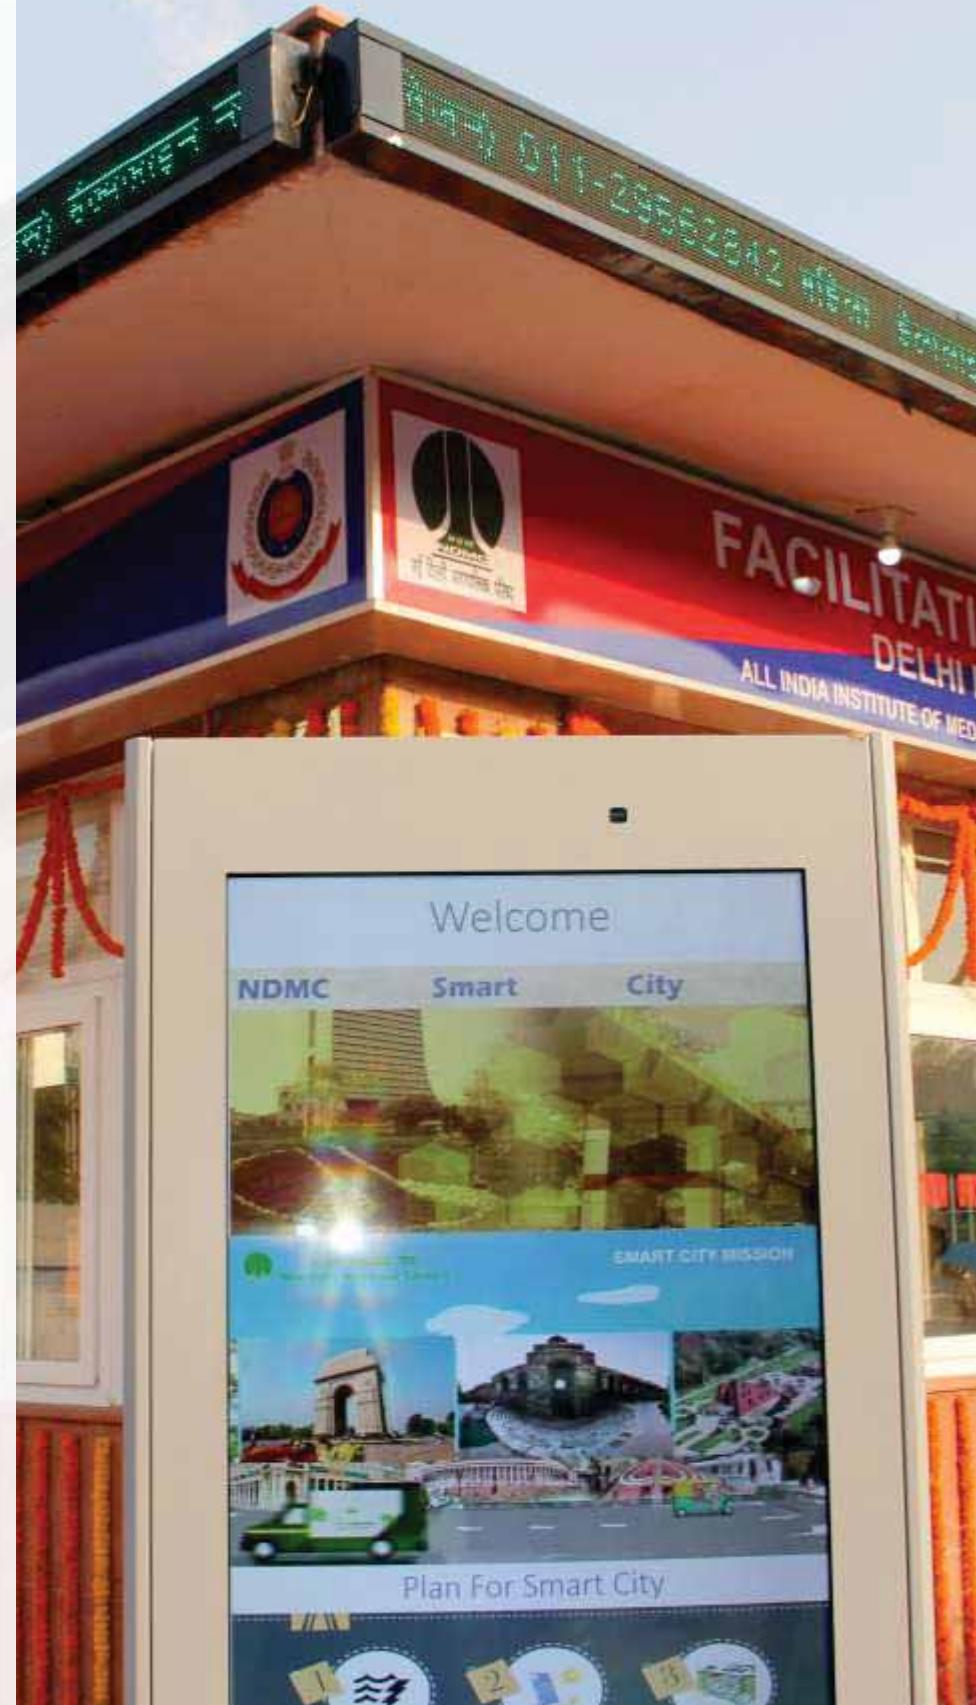

Licensing Unit Delhi Police is an ISO 9001:2008 certified organisation that deals with the licensing of – Arms , Explosives , Hotels , Cinemas , Press , Auditoriums , Amusement Parks , Performance Licenses etc. Our Motto is "Citizens First". We are singularly dedicated to the mission of providing prompt and quality service to all. This organisation thrives on the regular feedback received from the public. Today we are standing at a customer satisfaction level of over 85%.

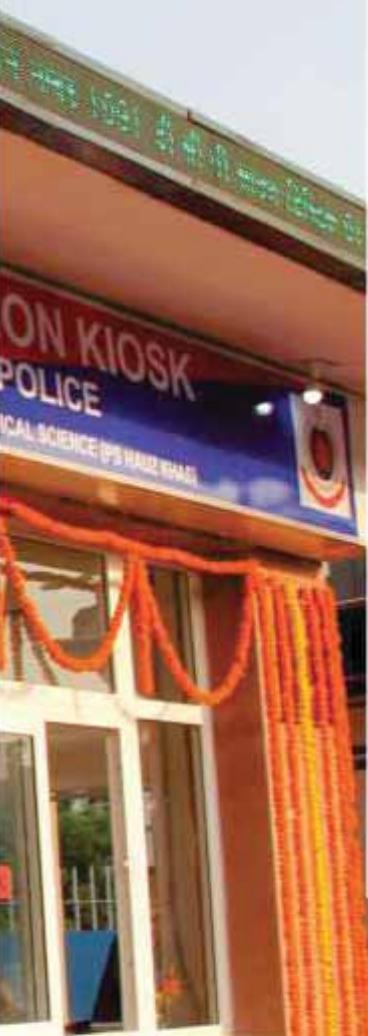

The success of the organisation is reflected in the fact that based on the feedback received from the public the licensing branch has made significant infrastructural improvements in order to reach out to the public viz – creating a new inquiry counter for facilitating the public to get information, opening of a new public lounge to ensure transparent public dealing.

We are always eager to learn as we grow and hence we request you to kindly give us regular feedback on our services.

e-Kiosk

Facilitation Kiosks have been made operational at several locations of high footfall such as AIIMS, Khan Market and the IGI Airport. These kiosks have been provided with an interactive panel having internet connectivity for online registration of FIRs regarding thefts, vehicle thefts, lost mobile/articles etc, besides the facility also to download several other service delivery proforma of Delhi Police.

Hon`ble Lt. Governor, Delhi inaugurated First e-Kiosk (Suvidha Sewa) at AIIMS, New Delhi on 14-09-2018

Our Services

The “SMART” Way

APPS

Delhi Police has taken a number of digital initiatives in keeping with the Hon'ble Prime Minister's directives regarding SMART policing. Technological up gradation has been given top priority in order to achieve the desired technological advancement to keep pace with the trends across the globe. A Chief Technology Officer, inducted in 2018, monitors all the ongoing projects besides rendering valuable contribution in the process of technological research and implementation of various projects.

LOST REPORT APP

Facilitates hassle-free lodging report of article/document lost

Lost Report App: The purpose of this App is to issue a report to an individual in case of loss of important document like passport, I-Card, Ration Card, Driving License etc. By entering relevant details on this mobile/web based App, one can lodge a lost report instantly and obtain a printable digitally signed report of the same and use this document for getting a fresh document re-issued from the concerned authority.

PCC APP

Digitally signed police clearance certificate

Police Clearance Certificate App: Police Clearance is required for the purpose of applying for visa, admissions in educational institutions, seeking jobs etc. The basic details filled by the applicant are automatically checked up with the record of CRO. PCC is generated within 7 working days.

The screenshot shows the official website of the Delhi Police. At the top, there is a dark blue header bar with the text "Delhi Police" and "SHANTI SEWA NYAYA" on the left, and "Control Room Call Us : 100" on the right. Below the header, there is a navigation menu with links for "HOME", "ABOUT US", "SERVICES", "INITIATIVES", "STATISTICS", "RECRUITMENT", "USEFUL LINKS", and "CONTACT US". A large banner in the center features a portrait of Commissioner Amulya Patnaik and a group of police officers in uniform. Below the banner, there is a "Help Line" section with links to "PCR : 100 (24X7) (Toll Free)", "Eyes and Ears : 1090 (Toll Free)", and "Women in distress : 1091". The main content area contains several buttons for various services: "R.T.I.", "Security of Women & Children", "CCTNS", "Districts", "Press Releases & Rejoinders"; "Yuva", "Security of N.E. Residents", "Traffic Unit", "Training Division"; "Delhi Police Samachar", "Senior Citizen Cell", "Licensing Unit", "Photo Gallery"; "Satark Sewa", "OF Them We Are Proud!", "View FIR", "Tender"; and a "SAFETY APP FOR WOMEN" button. At the bottom of the page, there are links for "COMMISSIONER'S DESK" and "SOFT COPY OF ANSWER KEYS & QUESTION BOOKLETS OF EXAMINATION FOR DIRECT RECRUITMENT FOR VARIOUS TRADES".

- Information about towed away vehicles
- Direct call to emergency numbers

Available on www.delhitrafficpolice.nic.in |

Available on |

DELHI POLICE
Shanti • Sewa • Nyaya

Delhi Traffic Police Mobile App: The App was launched by Delhi Police for a two-way interaction with general public to share the traffic status information and to invite public to participate in better management of traffic on Delhi roads. This app provides information to general public by issuing traffic advisory and traffic alerts about traffic situations at various locations. It also has a feature for fare calculation for auto/taxi on the basis of aerial distance provided on Google map. Public can lodge complaint against the auto/taxi driver for refusal/overcharging and harassment etc. Public can also help in traffic management by lodging a complaint about faulty traffic signals. The App also provides information regarding various offences and penalties.

SENIOR CITIZEN APP

For help to Senior Citizens

Senior Citizen App: This Mobile App facilitates easy access by senior citizens to the names and telephone numbers of the Beat Officers. It also has an SOS button for emergency call, which connects to the senior citizens Helpline No. 1291. The emergency call indicates the location of the caller and also simultaneously alerts the area SHO, Beat Officer and a pre-assigned contact through SMS. Through the App, Beat Officers can find out the details of the registered senior citizens. This App also facilitates the area SHOs to register senior citizens directly.

TATPAR APP

Amalgamated APP of 50 Citizens Centric Services

A far-reaching digital initiative was launched by the Delhi Police in September 2019 to smoothen its service delivery to the citizens of Delhi. TATPAR – literally signifying ever-readiness to respond – amalgamates all the websites and mobile applications of Delhi Police, and over 50 services can be accessed with a single touch.

Community Outreach

Force Multipliers

Delhi Police has taken the lead in proactively reaching out in several innovative ways to the community so as to enlist and avail public co-operation as a force-multiplier in crime prevention in the residential and market areas:

Prahari Scheme

Prahari is a unique initiative of the Delhi Police for proactively associating critical stakeholders in security like guards and chowkidars in prevention of crime. It aims at promoting a feeling of ownership and camaraderie among these private security personnel to promote better police-public partnership and enhance area safety. The area police not only trains and sensitizes them but also liaises with the Residents' and Market Associations to provide these private security personnel with better security equipment to enhance their efficiency and output.

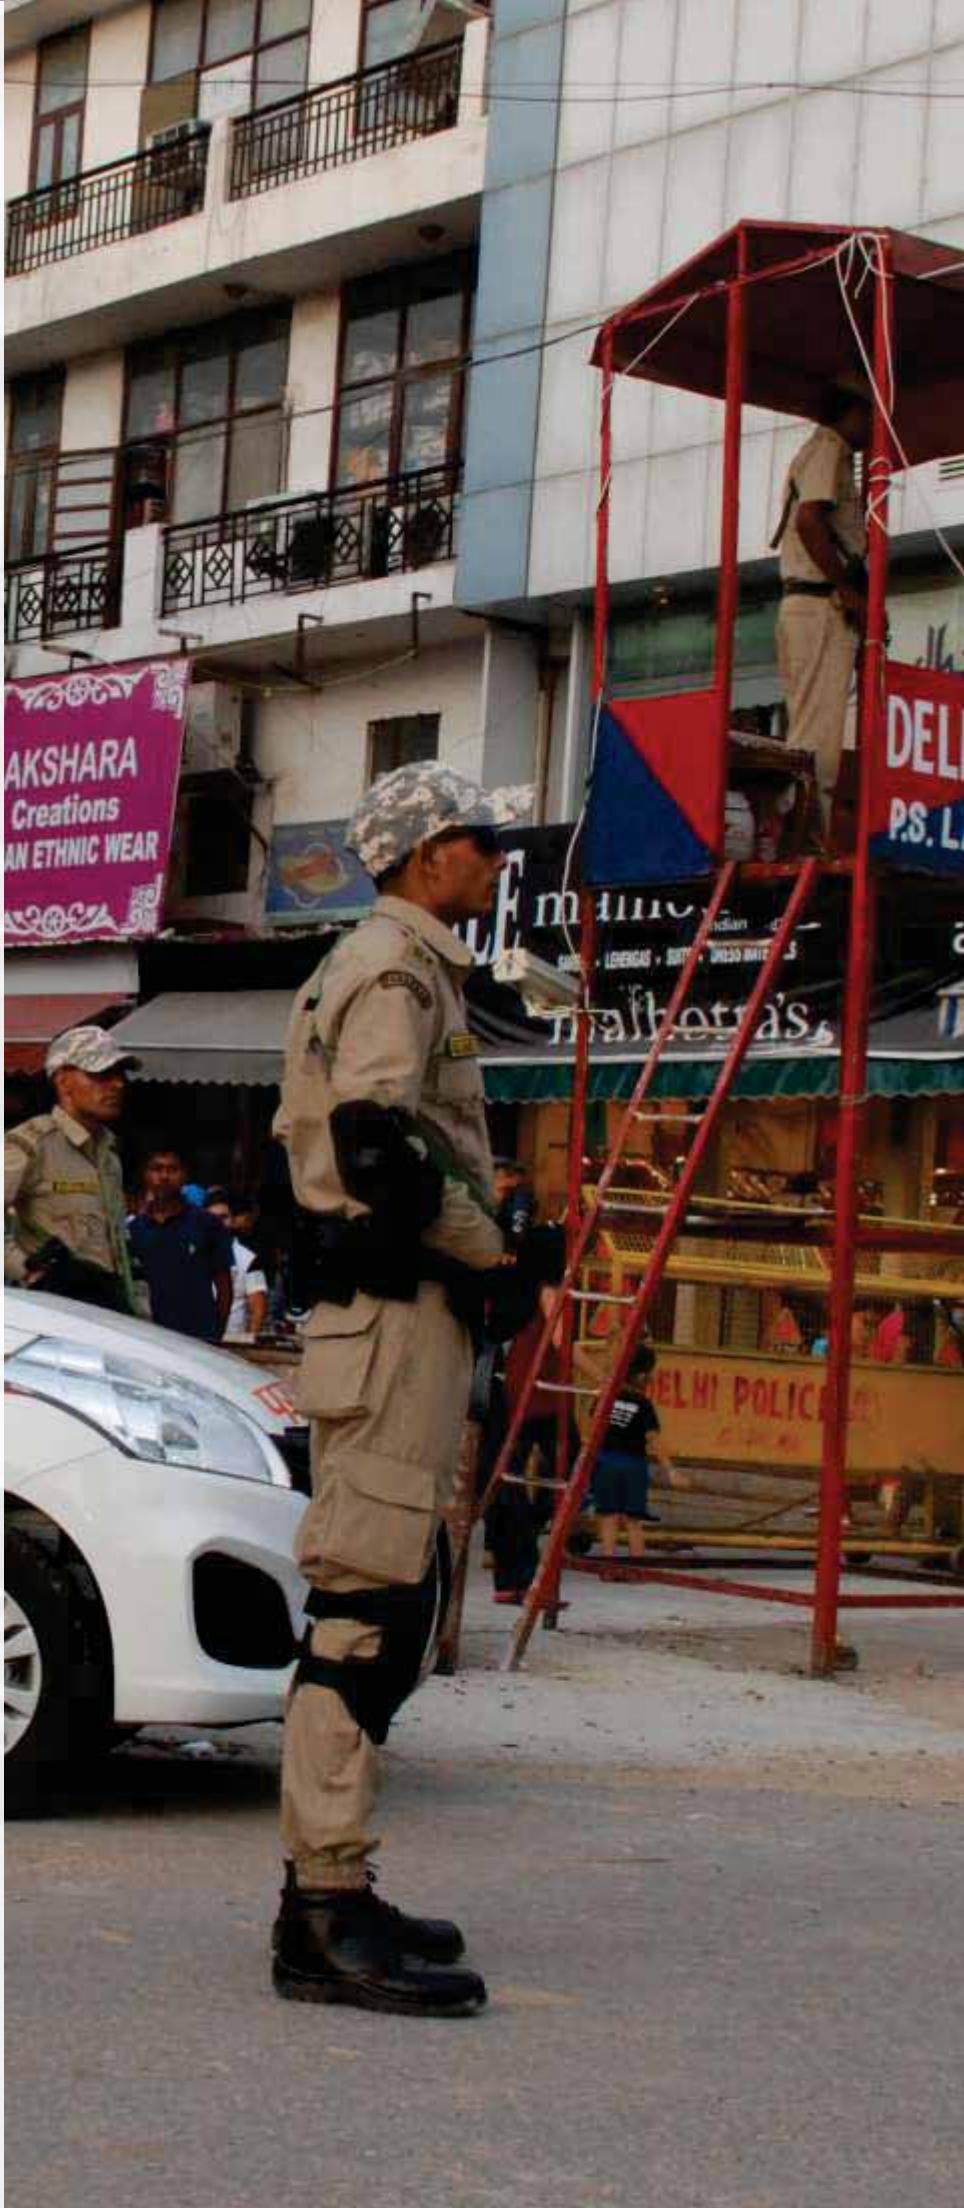

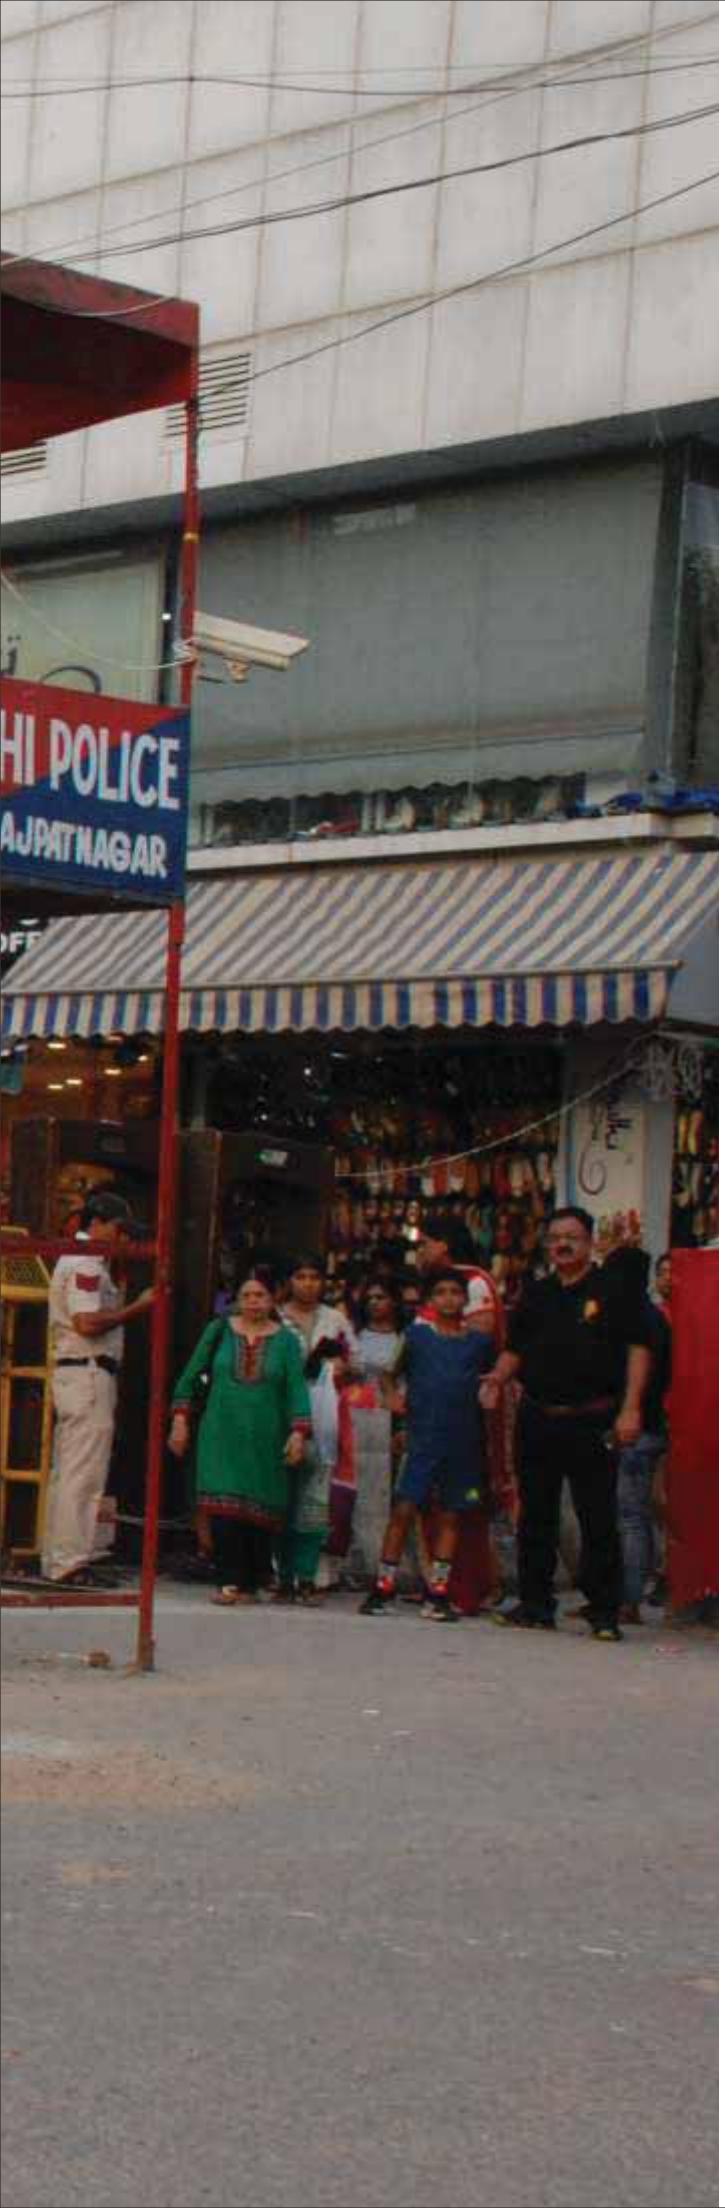

Eyes & Ears Scheme

In the "Eyes and Ears" scheme, various sections of public like rehriwalas, chowkidars, patriwalas, security guards, parking attendants, three wheeler/taxi drivers, bus drivers/conductors, porters, shopkeepers, property agents, second hand car dealers, landlords, members of RWA/MWA, cyber cafe owners and PCO owners, guest house owners and other alert citizens are involved in providing information regarding any suspicious activities of anti-social elements in the area. A toll-free number 1090 is designated for the purpose, and the identity of the informant is kept secret.

Neighbourhood Watch Scheme

In order to promote a long-lasting partnership with the community to enhance safety and reduce the fear of crime, the mechanism of Neighbourhood Watch Scheme has been successfully run by Delhi Police for several years. It aims at enhancing the security of the neighbourhood by sensitizing the residents to adopt and implement effective security measures in their colonies and houses.

Naazuk

An innovative community outreach by Delhi Police in under-privileged clusters to sensitise and protect children of delicate and vulnerable age from being victimised sexually by undesirable elements of the neighbourhood. It is intended at instilling confidence in the minds of blooming buds by teaching them to raise their voice and report such incidents to make the personal and public spaces of children secure and safe for them. Children and their guardians are sensitised about the potential threats with the help of Role play, short films and dramatics to generate awareness about child sexual abuse.

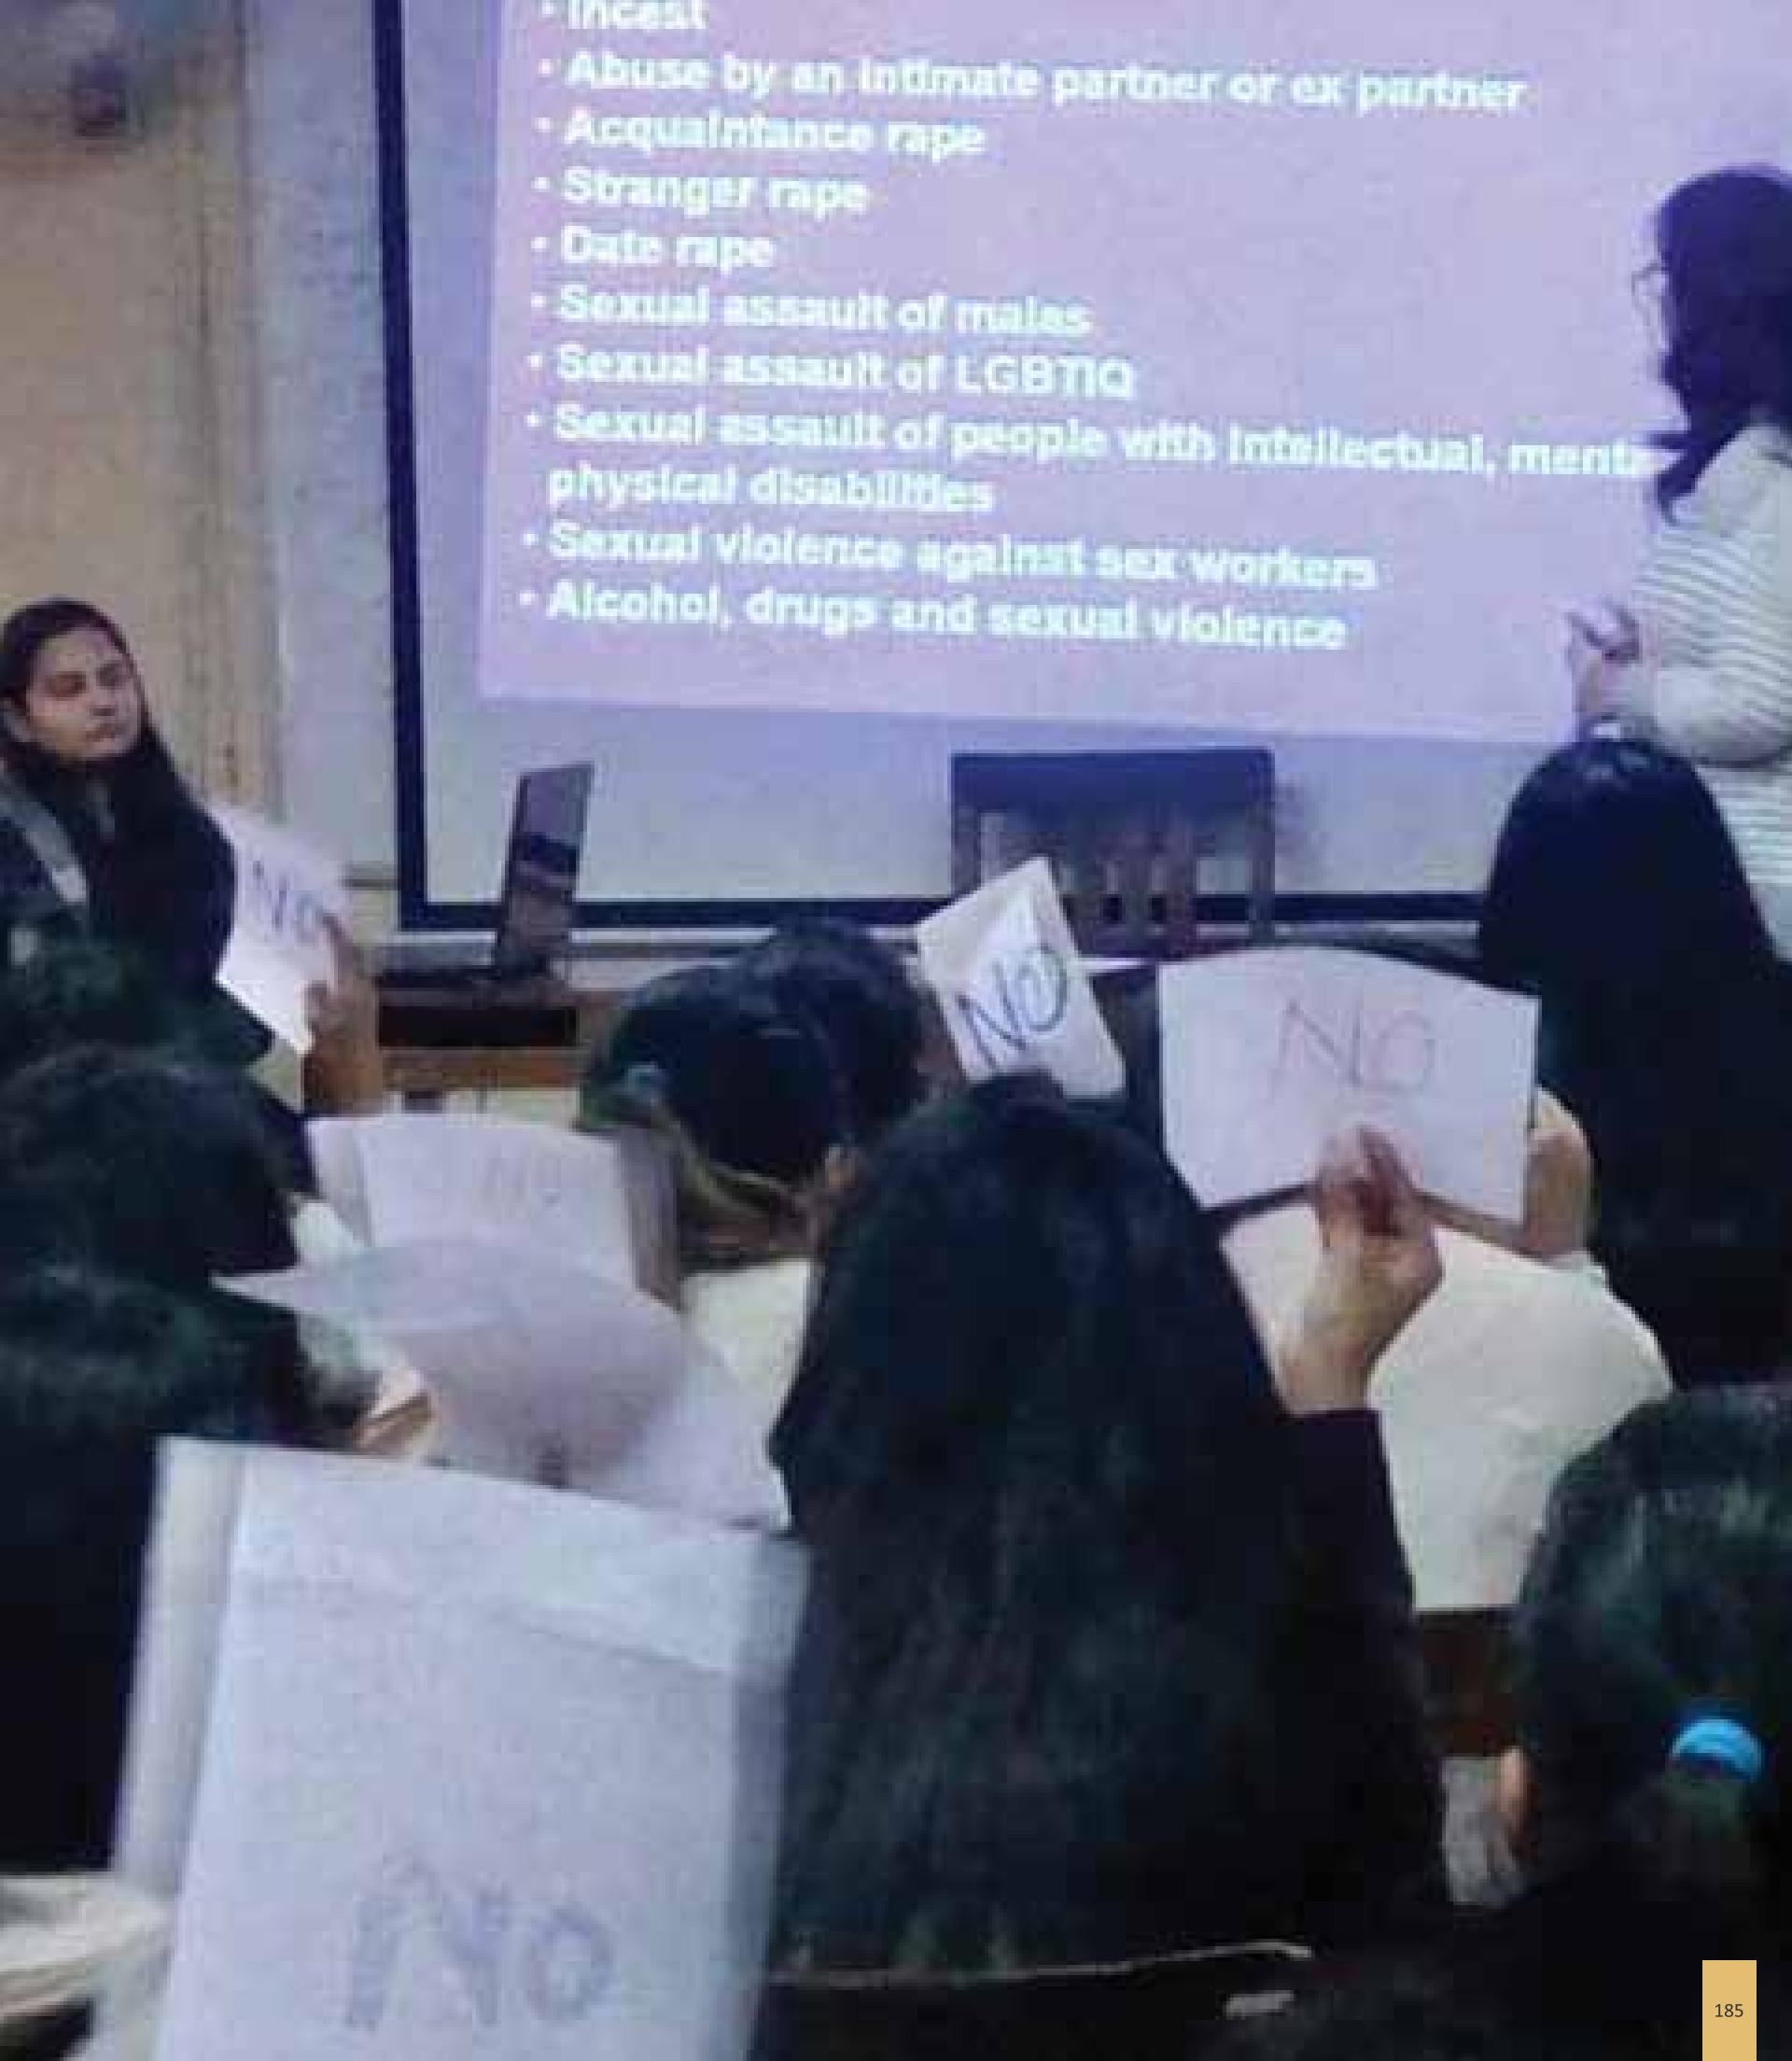

Nirbheek

While a number of platforms are available with general public to seek help from the police in cases of sexual harassment, an urgent need was felt to create a specialized forum for the girl child victims in school/college-going age group to effectively report such crimes. Delhi Police officials pay regular visits to 'co-educational' as well as girls' schools and conduct interactive sessions. The aim of these sessions is to instill a sense of confidence in them and sensitize them about basic precautions to be taken against sexual abuse.

- Incest
- Abuse by an intimate partner or ex-partner
- Acquaintance rape
- Stranger rape
- Date rape
- Sexual assault of males
- Sexual assault of LGBTAQ
- Sexual assault of people with intellectual, mental, physical disabilities
- Sexual violence against sex workers
- Alcohol, drugs and sexual violence

SOCIAL MEDIA

Delhi Police is using Social Media extensively to achieve credible social media presence in order to spread awareness on issues concerning citizen safety and security as also to create a positive image of the police force among the public. It is also used to communicate new developments in policing, particularly those concerning citizen services, empowerment of women and weaker sections, and to enlist public co-operation as our eyes and ears.

दिल्ली पुलिस एनथम

1. दिल्ली पुलिस...दिल्ली पुलिस... दिल्ली पुलिस...
हरदम अपना काम करे जनहित का रखें ध्यान ।
अनुशासन और कर्मठता से, हो इसकी पहचान ॥
इसकी तेज नजर से बचकर, मुजरिम भाग न पाए ।
गलियों सड़कों चौराहों पर, अपना फर्ज निभाये ॥
2. दिल्ली पुलिस...दिल्ली पुलिस... दिल्ली पुलिस...
जान माल की करे हिफाजत, जागी रहे हमेशा ।
कड़ी धूप मे मेहनत का देती हमको सन्देशा ॥
करता है हर एक सिपाही वर्दी का सम्मान ।
लोगों में विश्वास जगाकर ऊँचा करती मान ॥
3. दिल्ली पुलिस...दिल्ली पुलिस... दिल्ली पुलिस...
सबसे उत्तम सबसे बेहतर दिल्ली पुलिस हमारी ।
सच्चाई के साथ निभाये अपनी जिम्मेवारी ॥
कर्म हमारा सबसे पहला सेवा और सुरक्षा ।
सख्ती बरतें चोरों से जनता की करती रक्षा ॥
4. दिल्ली पुलिस...दिल्ली पुलिस... दिल्ली पुलिस...
निष्ठा जिसके लहू में बहती वो है दिल्ली पुलिस ।
सेवा को तत्पर रहती वो है दिल्ली पुलिस ॥
हरदम अपना काम करे जनहित का रखें ध्यान ।
अनुशासन और कर्मठता से हो इसकी पहचान ॥
